Annals Of The Former World:

Annals of the Former World John McPhee, 2000-06-15 The Pulitzer Prize winning view of the continent across the fortieth parallel and down through 4 6 billion years Twenty years ago when John McPhee began his journeys back and forth across the United States he planned to describe a cross section of North America at about the fortieth parallel and in the process come to an understanding not only of the science but of the style of the geologists he traveled with The structure of the book never changed but its breadth caused him to complete it in stages under the overall title Annals of the Former World Like the terrain it covers Annals of the Former World tells a multilayered tale and the reader may choose one of many paths through it As clearly and succinctly written as it is profoundly informed this is our finest popular survey of geology and a masterpiece of modern nonfiction Annals of the Former World is the winner of the 1999 Pulitzer Prize for Nonfiction **Annals of the**

Former World John McPhee, 1998-06-10 Like the terrain it covers Annals of the Former World tells a many layered tale and the reader may choose one of many paths through it guided by twenty five new maps and the Narrative Table of Contents an essay outlining the history and structure of the project **Annals of the Former World** John McPhee, 1983 **In Suspect Terrain** John McPhee, 1983-03 From the outwash plains of Brooklyn to Indiana s drifted diamonds and gold John McPhee s In Suspect Terrain is a compelling narrative of the earth s history *Annals of the Former World* John A. McPhee, 1982

Rising from the Plains John McPhee, 2011-04-01 Pulitzer Prize winning author John McPhee continues his Annals of the Former World series about the geology of North America along the fortieth parallel with Rising from the Plains This third volume presents another exciting geological excursion with an engaging account of life past and present in the high plains of Wyoming Sometimes it is said of geologists that they reflect in their professional styles the sort of country in which they grew up Nowhere could that be more true than in the life of a geologist born in the center of Wyoming and raised on an isolated ranch This is the story of that ranch soon after the turn of the twentieth century and of David Love the geologist who grew up there at home with the composition of the high country in the way that someone growing up in a coastal harbor would be at home with the vagaries of the sea **Assembling California** John McPhee, 2010-04-01 At various times in a span of fifteen years John McPhee made geological field surveys in the company of Eldridge Moores a tectonicist at the University of California at Davis The result of these trips is Assembling California a cross section in human and geologic time from Donner Pass in the Sierra Nevada through the golden foothills of the Mother Lode and across the Great Central Valley to the wine country of the Coast Ranges the rock of San Francisco and the San Andreas family of faults The two disparate time scales occasionally intersect in the gold disruptions of the nineteenth century no less than in the earthquakes of the twentieth and always with relevance to a newly understood geologic history in which half a dozen large and separate pieces of country are seen to have drifted in from far and near to coalesce as California McPhee and Moores also journeyed to remote mountains of Arizona and to Cyprus and northern Greece where rock of the deep ocean floor has been transported into continental

settings as it has in California Global in scope and a delight to read *Assembling California* is a sweeping narrative of maps in motion of evolving and dissolving lands

Basin and Range John McPhee, 1981-04 The first of John McPhee's works in his series on geology and geologists *Basin and Range* is a book of journeys through ancient terrains always in juxtaposition with travels in the modern world a history of vanished landscapes enhanced by the histories of people who bring them to light The title refers to the physiographic province of the United States that reaches from eastern Utah to eastern California a silent world of austere beauty of hundreds of discrete high mountain ranges that are green with junipers and often white with snow The terrain becomes the setting for a lyrical evocation of the science of geology with important digressions into the plate tectonics revolution and the history of the geologic time scale

Looking for a Story Noel Rubinton, 2025-05-13 An annotated bibliography that documents the work of the longtime New Yorker writer journalist Pulitzer Prize winner and Princeton professor John McPhee

Forensic Evidence Terrence F. Kiely, 2005-11-29 Focusing on issues raised at Interpol's 14th Forensic Science Symposium this volume offers a complete overview and analysis of the scientific and legal aspects of each of the forensic disciplines It updates cases and discusses recent applications of Frye Daubert the admissibility of eyewitness identification the explosion of cases and statutes addressing post conviction DNA the rise in attention to cold cases and other challenges This is the book that those in the forensic sciences need to have on hand to successfully prepare for what may await them in the courtroom

Deep Map Country Susan Naramore Maher, 2014-05-01 Scholarly study of Great Plains nonfiction writers in the genre of deep mapping a genre that weaves together strata of narrative that includes natural history cultural history geography memoir and intertextual material

Princeton Alumni Weekly, 1998

Ethics of Alaska Travel Writing since 1959 Benjamin Ferguson, 2025-08-28 This book digs into environmental themes in Alaska travel writing since U.S. statehood in 1959 drawing on the works of six authors including Barry Lopez Jonathan Raban Tom Lowenstein and others Each work though disparate in style advocates for the empowerment of the Alaska Native people by connecting not only with diverse perspectives but with the lived realities in the geographical spaces that have formed them In analyzing how these authors have succeeded in depicting the realities of alterities and where they have perhaps fallen short by more recent standards we may begin to carve out a system of ethics This is important as fresh waves of travel writers search for their own place in the environmental conversations surrounding the ever evolving 21st century Arctic and its place on the front lines of a changing climate

The People's Standard History of the United States Edward Sylvester Ellis, 1896

Irons in the Fire John McPhee, 1997-04 Not to mention *Plymouth Rock Travels of the Rock* which ends the book is about a day when the State of Massachusetts had to call in a mason to repair the nation's most hallowed lithic relic
