A Trekking Guide to Annapurna North Bob Gibbons, 2023 Annapurna I was the first 8000m peak to be climbed in 1950. A French expedition led by Maurice Herzog reached the summit. It was an epic climb and has become a classic in mountaineering achievement. Over seventy years later the route remains obscure, unheard of and rarely trodden. The trail up the mysterious Miristi Khola canyon is finally on the map with a glittering route to the turquoise Narchang Lake and the stunning amphitheatre of peaks surrounding Annapurna North Base Camp. With unimaginable mountain grandeur and breathtaking trails through pristine nature this trek is a revelation. To follow in the footsteps of those illustrious climbers of 1950 is a sensational experience that few have yet discovered.

Trekking in the Caucasus Urii Kolomietz, Aleksey Solov'ev, 1994 Now that the

former Soviet Union is open to Western walkers and climbers many are taking the opportunity to visit the fabled Caucasus the highest mountains in Europe British climbers knew the area a century ago and unlike the Alps the changes have been minimal 62 walks are described Some need simple climbing skills but most are straightforward In addition two routes are described to the tops of Elbruz the highest mountain in Europe This is the first modern book of its kind by Russian authors There are some very easy routes across the Main Range following good wide paths but the fact is that the central part from the Klukhor to Mamisonsky passes cannot offer such a boon It does not mean you have to climb to get over the Range but you should not expect a comfortable path up to the saddle and you have to be ready for scree grass and snow slopes Not a big hardship considering the reward in calm and seclusion so rare nowadays
