

The background of the cover is a microscopic view of blood. It features numerous red blood cells, which are biconcave and colored in shades of red and orange. Interspersed among them are several blue-green cells, likely representing immune cells such as leukocytes or macrophages. Some of these blue-green cells have visible protrusions or spikes, giving them a more complex, textured appearance. The overall lighting is soft, with a slight gradient from top to bottom, creating a sense of depth and focus on the cellular structures.

Kuby Immunology Jenni Punt, Sharon

Stranford, Patricia Jones, Judy Owen, 2018-10-16 Janis Kuby's groundbreaking introduction to immunology was the first textbook for the course actually written to be a textbook. Like no other text, it combined an experimental emphasis with extensive pedagogical features to help students grasp basic concepts. Now in a thoroughly updated new edition, Kuby Immunology remains the only undergraduate introduction to immunology written by teachers of the course. In the Kuby tradition, authors Jenni Punt, Sharon Stranford, Patricia Jones, and Judy Owen present the most current topics in an experimental context, conveying the excitement of scientific discovery and highlighting important advances, but do so with the focus on the big picture of the study of immune response enhanced by unsurpassed pedagogical support for the first-time learner. Punt, Stranford, Jones, and Owen bring an enormous range of teaching and research experiences to the text, as well as a dedication to continue the experiment-based, pedagogical-driven approach of Janis Kuby. For this edition, they have worked chapter by chapter to streamline the coverage to address topics that students have the most trouble grasping and to continually remind students where the topic at hand fits in the study of immunology as a whole.

Loose-leaf Version of Immunology Judy Owen, 2013-01-25 The 7th edition of Kuby Immunology presents an up-to-date and comprehensive introduction to the principles and findings of immunology. It contains full-colour illustrations, study questions, study aids, and much more.

Kuby Immunology Sharon A. Stranford, Judith A. Owen, Jenni Punt, Patricia P. Jones, 2023 It is our goal that students should complete an immunology course not only with a firm grasp of content but also with a clear sense of how key discoveries were made, what interesting questions remain, and how they might best be answered.
