

Lion King Ecology Enrichment

4) Fill in the Energy-Pyramid for The Lion King using the animals from questions #1-3, label the level of energy that is transferred on the right, and label the trophic levels on the left. (Again you may also evaluate the trophic levels: primary, secondary, tertiary, quaternary, and tertiary consumers)

5) Which two animals are part of this pyramid?

6) List 3 living and 3 abiotic factors in this ecosystem.

Living Factors	Abiotic Factors

Answer Key For Biology Lion King Review

RC Schank

Answer Key For Biology Lion King Review:

The Lion Craig Packer,2023-03-28 Lions lead intricate lives They hunt together raise cubs together and defend territories together But though life at the top of the food chain may mean that lions have little to fear from other species they can easily dominate every other carnivore in their midst they still must constantly safeguard against the threat posed by other lions Each day is dominated by the demands of raising a family while protecting themselves against enemies endowed with the same strengths and skills Biologist Craig Packer has spent his career studying the African lion one of the most fascinating animals on earth In this book he synthesizes his decades of research in the Serengeti into an up to date portrait of the African lion and reveals how he and his colleagues have come to understand this creature s behavior ecology and conservation Packer opens the book by providing readers with background on lions territory daily behavior lifespan and physiology From there he delves more deeply into lion society illustrating the complexity of lion life from cub rearing and foraging to competition with other lions In the final chapters Packer zooms out to summarize what is known about lion ecological abundance and distribution as well as their conservation status Not surprisingly lions are increasingly threatened however Packer ends his book on a hopeful note pointing to programs that are successfully protecting lion populations
