Journal of the American Pharmacists Association Professor and Associate Dean for Academic Affairs College of Pharmacy
University of Texas at Tyler Tyler Texas **The SAGE Encyclopedia of Social Science Research Methods** Michael
Lewis-Beck, Alan E Bryman, Tim Futing Liao, 2004 Appreciative users of this volume will be students faculty and researchers
in academic special and large public libraries for whom it is recommended Library Journal The compilers of this impressive
unique work claim it brings together in one place authoritative essays on virtually all social science methods topics both
quantitative and qualitative a claim examination supports More than 400 contributors from the US and abroad present
approximately 1 000 comprehensive in depth well referenced entries that vary in length from 50 to 2 500 words The
attractively designed and produced volumes 1 351 total pages consist of easily legible text and figures the front matter
occupying 46 pages and the index 40 This defining work will be valuable to readers and researchers in social sciences and
humanities at all academic levels As a teaching resource it will be useful to instructors and students alike and will become a
standard reference source Essential for general and academic collections Choice SAGE Reference is proud to announce The
SAGE Encyclopedia of Social Science Research Methods a three volume resource that is a first of its kind developed by the
leading publisher of social science research methods books and journals This unique multi volume reference set offers
readers an all encompassing education in the ways of social science researchers Written to be accessible to general readers
entries do not require any advanced knowledge or experience to understand the purposes and basic principles of any of the
methods The Encyclopedia features two major types of entries definitions consisting of a paragraph or two which provide a
quick explanation of a methodological term and topical treatments or essays discussing the nature history application
example and implication of using a certain method Also included are suggested readings and references for future study To
help provide a more complete explanation than is often achieved within the scope of a single article key terms and concepts
appear in small capital letters to refer readers to related terms explained elsewhere In addition to epistemological issues that
influence the nature of research questions and assumptions The SAGE Encyclopedia of Social Science Research Methods
tackles topics not normally viewed as part of social science research methodology from philosophical issues such as
poststructuralism to advanced statistical techniques In covering the full range of qualitative and quantitative data analyses
this key reference offers an integrated approach that allows the reader to choose the most appropriate and robust techniques
to apply to each situation Many entries treat traditional topics in a novel way stimulating both interest and new perspectives
One example is the entry Econometrics by Professor Damodar Gujarati Following a process which many educators preach but
seldom practice Gujarati walks the reader twice through the research process from economic theory to data and models to
analysis once in principle and a second time with an example In using the ordinary process of economic research to achieve
an extraordinary impact he leaves the reader thinking not only about methods and models but also the fundamental purpose
of econometrics Topics Covered Analysis of Variance Association and Correlation Basic Qualitative Research Basic Statistics

Causal Modeling Structural Equations Discourse Conversation Analysis Econometrics Epistemology Ethnography Evaluation Event History Analysis Experimental Design Factor Analysis and Related Techniques Feminist Methodology Generalized Linear Models Historical Comparative Interviewing in Qualitative Research Latent Variable Model Life History Biography Loglinear Models Categorical Dependent Variables Longitudinal Analysis Mathematics and Formal Models Measurement Level Measurement Testing and Classification Multiple Regression Multilevel Analysis Qualitative Data Analysis Sampling in Surveys Sampling in Qualitative Research Scaling Significance Testing Simple Regression Survey Design Time Series Key Features Over 900 entries arranged A to Z Each entry is written by a leading authority in the field covering both quantitative and qualitative methods Covers all disciplines within the social sciences Contains both concise definitions and in depth essays Three volumes and more than 1500 pages
