## **Interests And Integration Market Liberalization Public Opinion And European Union:**

**Interests and Integration** ,2009 Integration in Europe has been a slow incremental process focusing largely on economic matters Policy makers have tried to develop greater support for the European Union by such steps as creating pan European political institutions Yet significant opposition remains to policies such as the creation of a single currency What explains continued support for the European Union as well as opposition among some to the loss of national control on some questions Has the incremental process of integration and the development of institutions and symbols of a united Europe transformed public attitudes towards the European Union In this book Matthew Gabel probes the attitudes of the citizens of Europe toward the European Union He argues that differences in attitudes toward integration are grounded in the different perceptions of how economic integration will affect individuals economic welfare and how perceptions of economic welfare effect political attitudes Basing his argument on Easton s idea that where affective support for institutions is low citizens will base their support for institutions on their utilitarian appraisal of how well the institutions work for them Gabel contends that in the European Union citizens appraisal of the impact of the Union on their individual welfare is crucial because their affective support is quite low This book will be of interest to scholars studying European integration as well as scholars interested in the impact of public opinion on economic policymaking Matthew Gabel is Assistant Professor of Political Science University of Kentucky *Interests and Integration* Matthew Joseph Gabel,2009-12-10 Explains differences in public support for integration in Europe *The Oxford Handbook of the European Union* Erik Jones,Anand Menon,2012-08-30 This is an authoritative one volume and independent treatment of the history functioning and nature of the European integration Written by a selection of leading scholars It covers the major institutions policies and events in the history of integration whilst also providing a guide to the major theoretical approaches that have been used to study it over time By bringing together such a distinguished cast covering such a wide array of themes the Handbook is intended as a one stop shop for all those interested in the European Union and its predecessors Written in an accessible style the volume is intended to shape the discipline of EU studies and to establish itself as the essential point of reference for all those interested in European integration both in universities and more broadly It represents a timely guide to an institution that is much discussed but often only imperfectly understood **Representing Religion in the European Union** Lucian Leuştean,2013 Religious actors are becoming part of the EU bureaucratic system and their mobilisation in Brussels and Strasbourg in the last decade has increased dramatically This book explores the mechanism and impact of religious representation by examining relations between religious practitioners and politicians in the European Union from the Second World War until today This book seeks to answer the following questions How do trans national religious groups enter into contact with European institutions What are the rationale and the mechanisms of religious representation in the European Union How are religious values transposed into political strategies What impact has relations between religious practitioners EU officials and politicians on

the construction of the European Union Examining religious representation at the state transnational and institutional levels this volume demonstrates that faith is becoming an increasingly important element of the decision making process It includes chapters written by both academics and religious practitioners in dialogue with European institutions and will be of great interest to students and scholars of European politics history sociology of religion law and international relations **The European Union beyond the Crisis** Boyka M Stefanova,2014-11-14 This volume explores institutional and policy developments in the EU and its member states in a parallel examination of citizens views of the effectiveness of crisis response reflected in public trust output legitimacy and satisfaction with democracy Our approach to understanding the crisis posits EU level governance and institutional change national level policymaking and domestic politics as interrelated interdependent domains of political action and public spheres that collectively shape the political landscape of post crisis Europe The volume sheds new light on the relationship among the institutional policy and polity consequences of the crisis The book has two fundamental aims The first is to demonstrate the interconnected nature of European governance domestic reform and democratic politics The unprecedented complexity of the financial sovereign debt economic and social crises in Europe has led to a political crisis that reflects the struggle to effectively address its various causes and effects The second objective is to present a theoretically informed assessment of the consequences of the European crises for state society relations and democratic legitimacy Our analysis of the crisis in a variety of national contexts and European governance highlights the difficulties faced by political decision makers We find that the domestic policy process is selectively affected or disconnected from the process of rule making at the EU level that public opinion still matters in the process of policy formation and EU crisis response and that the salience of the EU agenda in the domestic public sphere increasingly depends on the preferences of political actors Public response to the crisis has become increasingly complex as well ranging from declining trust in the political institutions emerging national stereotypes changing expectations of the EU level of crisis response growing disconnect between political parties and voters and evolving intra regional distinctions across the EU s east west divide *Coping with Crisis: Europe's Challenges and Strategies* Jale Tosun,Anne Wetzel,Galina

Zapryanova,2016-03-17 How has the economic and financial crisis that started in 2007 affected European integration Observers have been speculating about whether the crisis will ultimately lead to a strengthening or weakening of the European Union This book studies the effects of the crisis on EU policy making and institutional arrangements on one hand and citizens EU attitudes and political parties electoral strategies on the other It concludes that at least in the short run the crisis has overall created an opportunity for European integration rather than an obstacle First it has triggered events of proposed and actual far reaching policy and institutional change Second negative effects on public opinion have not yet systematically translated into tendencies of stagnation or disintegration The book brings together established scholars of European integration whose diverse research expertise contributes to an improved theoretical and empirical understanding

of how the economic and financial crisis has affected EU policies institutions and citizens This book was published as a special issue of the Journal of European Integration

**European Union Politics** Michelle Cini, 2007 With its established authority and reputation the new edition is an invaluable resource Michelle Cini has brought together a team of international contributors each specialising in a different field of EU politics The book is divided into five parts and deals with the history of the European integration process theories of European integration the European institutions a select number of European policy areas and issues of relevance to the study of EU politics The second edition has been updated throughout to reflect recent developments and there are four new chapters on the constitutional treaty CFSP and ESDP the single market and public opinion This book is supported by a cutting edge Online Resource Centre Student resources Interactive timeline BRAND NEW HE ONLINE RESOURCE Interactive map of Europe with facts key dates and web links for all the EU countries BRAND NEW HE ONLINE RESOURCE Maps Case studies Web links Information on key articles and books Flashcard glossary Multiple Choice Questions Lecturer resources PowerPoint slides

**Euroscepticism, Europhobia and Eurocriticism** Cesareo Rodriguez-Aguilera de Prat, 2013 This book analyses in detail the electoral manifestos and programmes presented by twenty two parties during the European Parliamentary elections in 2009 The research indicates that radical right wing parties usually have Europhobic impulses however radical left wing parties are in theory favourable to European integration but dispute the direction currently imposed by the EU authorities
