*American Odyssey* John E. Swindells, 2015-01-14 When two young Paleo Indians choose love against the wishes of their clans it means banishment and certain death but Roxor a Nenana and Xoxa a Ka Tanana see no future without each other Roxor falls out of favor with his people when he disobeys his father and endangers the group of women under his protection Sentenced to an arduous expedition to gather stone for making tools Roxor encounters a cruel and previously unknown clan When he alerts his leaders to the threat of this warring tribe they try to ensure their security by strengthening their alliance with the Ka Tanana through an arranged marriage between Roxor's half brother and Xoxa As the hazard of war looms Roxor and Xoxa must decide whether they will accept their doom or chase after a desperate chance at life on their own terms *American Odyssey Alaskan Genesis* plunges you into a prehistoric tale of star crossed lovers Grounded in anthropological facts and enriched with gripping adventures you won't soon forget this saga *America, History and Life*, 1991 Article abstracts and citations of reviews and dissertations covering the United States and Canada [Geologic Studies in Alaska by the U.S. Geological Survey During ...](#), 1997 [Geologic Studies in Alaska by the U.S. Geological Survey, 1995](#), 1984

**Molecules of Nature** Paul F. Torrence, 2017-12-13 Molecules of nature are created by living organisms in their quest to survive and thrive in Earth's challenging environments This ages old evolutionary struggle has produced an immense library of chemicals from which humans have selected invaluable therapeutics critical to modern medicine Natural products presently provide half of all prescription medications and 70% of all cancer drugs The success of continued drug development from natural products depends upon the diversity of molecules of nature which in turn depends upon biodiversity Unfortunately human caused damage to the environment from pollution to habitat loss to overexploitation of resources is causing unprecedented ecological damage and death of species a mass extinction event Unless this biotic crisis is obviated humanity will lose a primary source of future novel medicines This book assembles a powerful argument for nature's critical role in providing medicines for humanity and how that irreplaceable service is threatened by the extinction crisis A sampling of the molecules of nature employed in modern medicine reads like a catalog of biodiversity For example one of the most prescribed drugs in the United States is lisinopril which controls high blood pressure Lisinopril originated from the venom of a deadly viper from the Amazonian forests A denizen of US southwestern deserts provided a therapeutic for type II diabetes The ancient horseshoe crab of the US Atlantic coast enables a critical test for deadly endotoxins in medical products of all kinds Once a diagnosis of acute lymphocytic leukemia in children was a death sentence A tropical flower from Madagascar provided two natural products that changed a 90% fatality rate to a 90% cure rate The Pacific Yew tree from the US northwest was discovered to contain the potent anticancer agent Taxol now vital in the treatment of breast and ovarian cancers and Kaposi's sarcoma This book tells the fascinating story of these and other medicines It also summarizes some of the driving forces of the Sixth Mass Extinction and shows how it threatens at least half of the planet's

species with extinction We rightly ask What will be the future of medicine without the contribution of millions of species How many treatments for disease will be forever lost What cures are we asking future generations to forgo As we willy nilly extinguish the future of one organism after another together with all the knowledge they hold we are like the looters of the Great Library of Alexandria The final chapter challenges readers to pursue a different outcome By uniting our efforts we can still preserve many of the remaining species on our blue green planet and the invaluable gifts they offer

*The Video Source Book* David J. WEINER,1990    American Odyssey John Swindells,2015-04-02 Ice Age hunters Roxor and Xoxa have chosen love over duty and are now outcasts struggling to survive in a harsh land It s roughly 11000 BCE and in what is now known as Alaska humans rely on family and community to eke out an existence The Ice Age is ending and game is disappearing with the melting glaciers To make matters worse Roxor and Xoxa s problems don t end with their solitude Roxor s vengeful jilted half brother is pursuing the lovers intent on reclaiming Xoxa his intended bride Xoxa herself has a dangerous secret that is slowing them down and could put her life at risk Roxor and Xoxa s best chance seems to lie in allegiance to another tribe the Tanana They re accepted but only because they keep their relationship secret The Tanana have their own challenges however in the form of violent conflict with the Borogoi Their adopted people will call on Roxor s fighting skills but he s more intent on traveling south with his wife to lands where game is still plentiful Unfortunately no one is safe from the Borogoi and Roxor and Xoxa will have to make a stand before they can seek greener pastures
