## **Bmw R50 Service Manual:**

**BMW Motorcycles Workshop Manual R50 R50S R60 R69S** Floyd Clymer, 2007-03 A faithful reproduction of the 1967 Floyd Clymer publication of the official factory BMW Bayerische Motoren Werke Workshop Manual for the R50 R50S R60 and R69S twin cylinder motorcycles. It also includes the supplement issued by the factory for the USA versions R50US R60US and R69US. There are exhaustive tables of technical data tolerances and fits and all of the expected data from a factory publication for the repair and overhaul of all major and minor mechanical and electrical components making it an invaluable resource for collectors and restorers of these classic BMW motorcycles. There are 257 illustrations and each procedure is explained in a step by step method using an appropriate illustration. The translation from German to English is at times a little quirky but the profuse illustrations make up for any difficulty in understanding what needs to be done. True to the original this reproduction is published in four languages English German French and Spanish making this a universal publication and required reading for any owner. Out of print and unavailable for many years this book is highly sought after on the secondary market and we are pleased to be able to offer this reproduction as a service to all BMW enthusiasts worldwide.

**BMW Motorcycles 1969-1973 R50/5 R60/5 R75/5 Workshop Manual** Floyd Clymer, 2024-03-21 210 pages and more than 350 illustrations and charts size 8 25 x 10 75 inches. This publication is a reproduction of the August 1969 BMW factory workshop manual part number 01 51 9 099 051. This manual is applicable to all 1969 through 1973 BMW R50 5 R60 5 and R75 5 motorcycles. At the time of Floyd's unexpected demise in 1970 there were a number of manuals that had been completed and were ready for publication. This BMW motorcycle manual is one of those previously unpublished Floyd Clymer publications. Dated August 1969 this manual was obviously intended to be a follow up from his previous 1967 BMW R50 R26 series manual. The original 1969 proof copy that was included in the Floyd Clymer archives was likely finalized in early 1970. However as the BMW 5 series of motorcycles remained in production through 1973 we are pleased to present a newly prepared edition of Floyd's work as a service to all BMW motorcycle enthusiasts worldwide. Unfortunately owners of the 1969-1973 BMW 5 series models are subjected to considerable confusion surrounding the appropriate selection of the multitude of originals and reprints of the various manuals that have recently flooded the marketplace. We encourage you to exercise caution when purchasing a manual for your motorcycle or automobile as many of the reprints found on internet websites are from bedroom sellers at enticingly low prices by individuals that really have no idea what they are selling. Many are nothing more than poor quality comb bound photocopies that are scanned and printed complete with greasy pages and thumbprints and as such are deceptively described as pre owned used or even refurbished. In addition they are often advertised for the incorrect series and or model years.
