The Inkblots Damion Searls, 2017-02-21 The captivating untold story of Hermann Rorschach and his famous inkblot test NAMED ONE OF THE BEST BOOKS OF THE YEAR BY NPR New York Post Sunday Times UK Irish Independent In 1917 working alone in a remote Swiss asylum psychiatrist Hermann Rorschach devised an experiment to probe the human mind a set of ten carefully designed inkblots For years he had grappled with the theories of Freud and Jung while also absorbing the aesthetic movements of the day from Futurism to Dadaism A visual artist himself Rorschach had come to believe that who we are is less a matter of what we say as Freud thought than what we see After Rorschach's early death his test quickly made its way to America where it took on a life of its own Co-opted by the military after Pearl Harbor it was a fixture at the Nuremberg trials and in the jungles of Vietnam It became an advertising staple a cliché in Hollywood and journalism and an inspiration to everyone from Andy Warhol to Jay Z The test was also given to millions of defendants job applicants parents in custody battles and people suffering from mental illness or simply trying to understand themselves better And it is still used today In this first ever biography of Rorschach Damion Searls draws on unpublished letters and diaries and a cache of previously unknown interviews with Rorschach's family friends and colleagues to tell the unlikely story of the test's creation its controversial reinvention and its remarkable endurance and what it all reveals about the power of perception Elegant and original *The Inkblots* shines a light on the twentieth century's most visionary synthesis of art and science Praise for *The Inkblots* Impressively thorough part biography of Herman Rorschach psychoanalytic super sleuth and part chronicle of the test's afterlife in clinical practice and the popular imagination Searls is a nuanced and scholarly writer genuinely fascinating *The New York Times Book Review* A marvelous book about how one man and his enigmatic test came to shape our collective imagination The Rorschach test is a great subject and *The Inkblots* is worthy of it beguiling fascinating and full of new discoveries every time you look David Grann author of *The Lost City of Z* [The Evolution of Personality Assessment in the 21st Century](#) Christopher J. psychopolitical agency in the face of racial injustice within the urban environment Macdonald includes examples of clinical case analyses vignettes and ethnographic descriptions while also drawing upon a cross fertilization of theoretical ideas and disciplines An oft neglected element of community psychology is the practice of community informed psychological assessment especially within the inner city environments This book uniquely suggests ideas for how clinical practice in relationship to issues such as race and cultural memory can serve as a substantial vehicle for social justice against the backdrop of a prejudiced criminal justice system and mental health delivery system

Therapeutic Assessment with Children Deborah J. Tharinger, Dale I. Rudin, Marita Frackowiak, Stephen E. Finn, 2022-03-17 Therapeutic Assessment with Children presents a ground breaking paradigm of psychological assessment in which children and families collaborate with the psychologist assessor to understand persistent problems and find new ways of repairing their relationships and moving forward with their lives This paradigm is systemic client centered and culturally sensitive and is applicable to families from many different backgrounds who often feel misunderstood and disempowered by traditional assessment methods In this book the reader will find a step by step description of Therapeutic Assessment with Children TA C with ample teaching examples to make each step come alive Each chapter includes detailed transcripts of assessment sessions with Henry a ten year old boy and his parents as they progress through a Therapeutic Assessment and find new ways of appreciating each other and being together The combination of didactic and clinical material will give even new clinicians a groundwork from which to begin to practice TA C The volume demonstrates how the core values of TA C collaboration respect humility compassion openness and curiosity can be embedded in psychological assessment with children and families Therapeutic Assessment with Children will be invaluable for graduate assessment courses in clinical counseling and school psychology and for seasoned professionals wanting to learn the TA C model

Assessing Children in the Urban Community Barbara L. Mercer, Tricia Fong, Erin Rosenblatt, 2015-12-22 This book illuminates the process of child psychological assessment in community psychology through discussion theory and case studies of collaborative systemic treatment of children and their parents Assessing Children in the Urban Community presents a semi structured form of collaborative psychological assessment designed to help clients gain new insights and make changes in their lives Traditional psychological assessment focuses on diagnosis and treatment but has been slow to include contextual elements particularly social and cultural contexts into the assessment process and psychological report Clients receiving services in a community psychology clinic pay for their treatment through state welfare coverage They cannot choose their providers they cannot always determine the length and course of their mental health care they often do not have access to transportation to begin services to continue them or to take advantage of follow up recommendations The Therapeutic Assessment model is particularly adaptable to community psychology because it allows maximum interaction in the assessment process and promotes participation and collaboration in an often dis empowering system This book will be relevant to clinical psychologists community psychologists social workers

family therapists graduate students in psychology social work marriage and family therapists and counseling programs
