**Adaptation Studies** Christa Albrecht-Crane,Dennis Ray Cutchins,2010-07-31 The volume takes as its starting point the assumption that adapters cannot simply transpose or transfer one particular text from one medium to another They must interpret re work and re imagine the precursor text in order to choose the various meanings and sensations they find most compelling or most cost effective then they create scenes characters plot elements etc that match their interpretation These very relationships are the subject matter this collection seeks to explore Poststructural theory is an ideal place to begin a rigorous and theoretically sound investigation of adaptation As adaptation studies adopts a poststructuralist lens and defines this richer notion of intertextuality some of its key assumptions will change Adaptation scholars will recognize that all film adaptations are intertextual by definition multivocal by necessity and adaptive by their nature    **Central Manufacturing**
