Truth Seeker: Mormon Scriptures & the Bible

Warren M Mueller, 2014-02-10 Are Mormons Christians What do they believe How do their beliefs compare with other Christian religions I have been impressed by the dedication of Mormon missionaries the beauty of the Mormon Tabernacle Choir and the majestic architecture of Mormon temples I have known several Mormons and they seem to be family oriented people who live out their faith in tangible ways As American culture drifts towards situation ethics and values based on surveys Mormons are like other Christians in that they tend to be conservative and look to their Church and Scriptures for guidance This interest and curiosity led me to study Mormon scriptures and compare them with the Bible Each chapter of Truth Seeker Mormon Scriptures The Bible is a summary of each of the books that make up The Book Of Mormon The Pearl of Great Price and Doctrines Covenants This is followed by a discussion of internal inconsistencies differences from the Bible and historical problems In order to provide a balanced discussion the views of a devout Mormon Dr Jordan Jensen are included Brigham Young University and Latter day Saint LDS web sites were used to answer questions I still had after completing my review and to fill in gaps in my understanding of some doctrines and beliefs The result of these efforts is a book that provides insights into Mormonism and how it compares and deviates from other Christian churches The essence of the deviations are founded in the idea that Mormonism extends clarifies and sometimes replaces Biblical teachings based on revelations given to Joseph Smith and subsequent LDS prophets

religious groups still no consensus exists about the essential nature of the movement or its place in American religion In this study Barlow analyzes the approaches taken to the Bible by key Mormon leaders from founder Joseph Smith up to the present day He shows that Mormon attitudes toward the Bible comprise an extraordinary mix of conservative liberal and radical ingredients an almost fundamentalist adherence to the King James Version of the Bible coexists with belief in the possibility of new revelation and surprising ideas on the limits of human language Exploring this unique Mormon stance on scripture Barlow takes important steps toward unraveling the mystery of this quintessential American religious phenomenon

Reasoning from the Scriptures with the Mormons Ron Rhodes, Marian Bodine, 1995-07-01 Have the Mormons ever left you unsure of what to say? Their arguments are convincing, their teachings seem indisputable, and their stand on what they believe is firm. How can you effectively communicate to the Mormons that their gospel does not match up with the Bible? One of the best ways is to ask penetrating questions. Cult experts Ron Rhodes and Marian Bodine will help you understand the main points of Mormonism and discover where it falls short of God's truth. They then equip you to ask strategic questions that challenge the Mormon claim to be the only true church, the reliability of Mormon prophets, the authenticity of the Book of Mormon, Jesus' supposed visit to ancient America, the Mormon view of God, Jesus, and the Holy Spirit, and much more. You'll find *Reasoning from the Scriptures with the Mormons* a valuable guide to responding to Mormons with confidence.

Understanding the Book of Mormon Grant Hardy, 2010-04-07 Mark Twain once derided the Book of Mormon as chloroform in print: Long and complicated, written in the language of the King James version of the Bible, it boggles the minds of many. Yet it is unquestionably one of the most influential books ever written. With over 140 million copies in print, it is a central text of one of the largest and fastest growing faiths in the world. And Grant Hardy shows it's far from the coma-inducing doorstop caricatured by Twain. In *Understanding the Book of Mormon*, Hardy offers the first comprehensive analysis of the work's narrative structure in its 180 year history. Unlike virtually all other recent world scriptures, the Book of Mormon presents itself as an integrated narrative rather than a series of doctrinal expositions, moral injunctions, or devotional hymns. Hardy takes readers through its characters, events, and ideas as he explores the story and its

messages He identifies the book's literary techniques such as characterization embedded documents allusions and parallel narratives Whether Joseph Smith is regarded as author or translator it's noteworthy that he never speaks in his own voice rather he mediates nearly everything through the narrators Nephi Mormon and Moroni Hardy shows how each has a distinctive voice and all are woven into an integral whole As with any scripture the contending views of the Book of Mormon can seem irreconcilable For believers it is an actual historical document transmitted from ancient America For nonbelievers it is the work of a nineteenth century farmer from upstate New York Hardy transcends this intractable conflict by offering a literary approach one appropriate to both history and fiction Regardless of whether readers are interested in American history literature comparative religion or even salvation he writes the book can best be read if we examine the text on its own terms

The Book of Mormon Joseph Smith, 2009-05-05 With our American Philosophy and Religion series Applewood reissues many primary sources published throughout American history Through these books scholars interpreters students and non academics alike can see the thoughts and beliefs of Americans who came before us *Biblical And Non-biblical Evidences For The Book Of Mormon* Joseph Dean DeBarthe, 2018-08-29 What about the Book of Mormon That it is a controversial book cannot be denied Many do not accept it as scripture They believe that Joseph Smith Jr wrote it They also believe that the Bible is the only scripture ever written but nowhere does the Bible make that claim This belief is not biblical In fact just the opposite is true The Bible testifies to the existence of other written scriptures and specifically a second scripture written about the tribe of Joseph Ezekiel 37:19 This Joseph is the same Joseph of the coat of many colors the same Joseph sold into slavery in Egypt and the same Joseph that saved Egypt and all of the tribes of Israel from the seven year famine that occurred Due to his lack of knowledge and education if Joseph Smith Jr had written The Book of Mormon it would have been disproven years ago Instead as time passes more and more of it is proven to be correct Joseph Smith could not have written it for many reasons not the least of which is the fact that he was a barely literate man He knew very little of the scriptures and no Hebrew at all Yet The Book of Mormon is clearly written by highly educated men with a strong background in Hebrew customs and writing techniques none of which were known by any American in the 1800s More information on this subject will be explored within this book This book was begun by direction of the Holy Spirit and written to the entire body of Christ Some might ask why they should read it Some will read it to try to refute it others will read it to learn and still others will use it to further their own agendas However you should read it and pray over it asking God through His Holy Spirit to give you a witness as to its validity We need direction from the Holy Spirit because we are always vulnerable to error Even prophets can be deceived 2 Chronicles Chapter 18 Satan will do anything he can to prevent us from gaining unity in our fight against him For years he has used the divide and conquer plan and we have fallen prey to it It is time we stop fighting over our petty differences and start working together for the salvation of all mankind The harvest is plentiful it is time to bring it in and we can do it With the help of God through His Son Jesus Christ and His Holy Spirit we can accomplish

what would otherwise be impossible on our own *The Mormons and Their Bible* Martin Thomas Lamb,1903 *The Word of God* Dan Vogel,1990 Topics include literalism versus metaphor nineteenth century elements in the Book of Mormon Christian readings of the Old Testament conditional prophecy changing interpretations of the Book of Abraham the environment in which the Word of Wisdom was issued the possibility of foreknowledge Joseph Smith s understanding of the physical universe and many other vital issues surrounding LDS scripture
