marriage I couldn't help but be worried when he read through my dissertation at the end as I was concerned that I may have misunderstood some things or upset him with some of the detail I believe it was probably quite hard for him to read how much his behaviour over the years had affected me but all he said after he had read it through was that it was very insightful I knew then I had done a good job

**The Asperger Love Guide** Genevieve Edmonds, Dean Worton, 2005-12-15 This book breaks down the social emotional and practical aspects of relationships so usefully that it is a good resource for teachers and others working with neurotypical individuals In fact the book so sensibly discusses pitfalls strategies and individual responsibilities that it would be valuable reading for teenagers generally as well as for individuals with Asperger syndrome Tess Coll autism outreach teacher The Asperger Love Guide is recommended reading for those with Asperger's syndrome who are seeking or within a relationship The authors provide a clear explanation of how the characteristics of Asperger's syndrome can affect the development of a relationship and the expression of love They then provide sound practical advice for individuals and couples I really enjoyed reading The Asperger Love Guide and will be recommending the book to my clients Professor Tony Attwood This is the first

book I've read in a long time that once started I couldn't put down until it was finished. It is an exceptionally good read. The 77 pages are written succinctly with no waffle, just straight to the point. I will definitely buy a copy of this book for the whole family to use. I will use it to guide Joe, my 17-year-old Asperger son, when he's ready for it. It's not a book he would read himself, in fact, I read the section on the merits of single life out loud to him, a bit like a bedtime story.

**Action for ASD** There is a great need for more awareness of Asperger syndrome and how it affects personal relationships. The National Autistic Society find this a helpful guide.

**Cathy Mercer NAS** This book sets out some helpful facts about relationships in a neat, simple form.

**Asperger United** An excellent self-help text, the book is a clear and matter-of-fact guide to relationships and is unapologetic in offering straightforward and helpful advice for romantic success. Not a word is wasted and, as well as being highly recommended for individuals with Asperger's Syndrome, should also be read by education professionals supporting young people with Asperger's Syndrome in schools, colleges, and universities.

**SENCO Update** Aimed primarily at individuals with Asperger syndrome, this very readable book is, in fact, of use to a much wider audience. The issues are discussed openly and logically, and the advice given is both sympathetic and very matter-of-fact. The book breaks down the social, emotional, and practical aspects of relationships so usefully that it is a good resource for teachers and others working with neurotypical individuals. In fact, the book so sensibly discusses pitfalls, strategies, and individual responsibilities that it would be valuable reading for teenagers generally, as well as for individuals with Asperger syndrome.

**British Journal of Special Education** Material based on the experiences of the people on the Autistic Spectrum is usually written by neurotypical writers. Here, Genevieve and Dean, both adults with Asperger's Syndrome, share their advice and tips for romantic success. The chapters cover:

- o building self-esteem
- o the best places to meet potential partners
- o dating
- o maintaining relationships

Both authors work with the Asperger community, either providing support or training, so their insight is based upon other people's experiences as well as their own. This is shown in a number of case studies that support the elements described in each chapter. They write in a clear, accessible, and non-patronizing way, which will suit their audience. This will prove to be an invaluable book to those with Asperger's or those that support Asperger people.

She works as an associate of the Missing Link Support Service in Lancashire, supporting those disabled by society, including individuals with ASD. She speaks and writes frequently in the field of Autism, along with giving training workshops and counselling.
