*Innovation and Modernisation in Contemporary Russia* Imogen Sophie Kristin Wade,2022-07-29 This book examines how technological modernisation and innovation policies have been implemented in Russia from the Soviet era to the present day It discusses how since about 2000 the Russian state has attempted to address the country's excessive dependence on natural resources by implementing an ambitious programme of economic modernisation including giving innovation more policy prominence boosting state funding for research and development and innovation and emphasising science towns and technology parks as key instruments for stimulating innovation Based on extensive original research

taking a multidisciplinary approach and including detailed case studies the book explains why despite these efforts Russia is performing comparatively poorly in innovation outcomes It argues that a key factor is the country's political economy model in which science technology and innovation policies are mainly controlled and funded by the federal centre of power and led by domestic political and economic elites *Information Management Annual Plan (IMAP)* Colorado.
