**Teacher Evaluation** Kenneth D. Peterson, 2000-05-19. The original edition, published in August 1995, challenges current teacher evaluation and school practice. The book discusses stages of teacher choice, teacher responsibilities for evaluation, and suggests ways for teachers to become more involved and in control of their own evaluation. Combining information and techniques from his academic studies and evaluation experiences, Peterson presents a coherent, field-tested set of new practices for teacher evaluation. The revised edition adds new chapters on the role of the principal in changed teacher evaluation, how districts can transition from current practice to improved practices, the use of national standards developments in using pupil achievement data, and puts a new emphasis on developing sociologically. The Internet as a resource for local development is encouraged. 67 web sites are recommended as starting points. New resources for local development have been added from extensive field testing and analysis. Forms have been improved and district level principles have been assembled. Substantial material has been added on the topic of responding to deficient teacher practice. Finally, the research literature has been augmented.

**Contemporary Assessment for Educators** Clinton I. Chase, 1999. Within classroom assessment, there exists a wealth of information and statistics that proves to be cumbersome for teachers. **Assessment Rubrics Decoded** Kelvin Heng Kiat Tan, 2020-03-27. Rubrics offer concrete artefacts of what schools evaluate to be of merit and what educators and schools value to be worth rewarding. Assessment Rubrics Decoded offers insights into a myriad of issues that affect and are affected by the construction of merit in students learning and the articulation of underlying educational ideologies in the assessment of student achievement. Designed for both students and teachers who should have parity of involvement in developing and using rubrics, this book covers the problematic issues of assessment in schools while offering readers practical solutions to navigating the ensuing tensions and dilemmas. The notion that rubrics may hinder assessment

transparency is also discussed with examples to warn against uncritical use of rubrics that may discipline rather than help learners. The perspective of a school leader in providing assessment leadership to rubrics usage across a school is included for extending awareness of rubrics beyond classroom contexts. This provides an informed approach for teachers to understand the stakes and complexities involved in judging learning and learners whilst offering concrete options and suggestions to consider. This book will be a valuable resource for classroom teachers, school leaders, teacher educators and researchers interested in the field of assessment rubrics.
