Sajous,2015-07-06 Excerpt from Annual of the Universal Medical Sciences Vol 1 A Yearly Report of the Progress of the General Sanitary Sciences Throughout the World The preparation of this year's Annual was indeed an arduous task over one half of the editorial staff having been prostrated by the epidemic of influenza which prevailed at the time the several sections were to be written This combined with illness among the assistants of the central department rendered it impossible to finish the work as promptly as usual While craving the indulgence of the readers of the work the Chief Editor wishes to impress them with the fact that everything possible was done to avoid the twenty days delay and that words can hardly express his gratitude to the members of the associate staff several of whom undertook their laborious tasks when hardly able to leave their beds The improvements in this year's issue mainly consist in the creation of departments on subjects heretofore considered under general heads Syphilis for instance under the editorship of Prof J William White of Philadelphia appears as a special section replete with

information that could hardly otherwise be presented satisfactorily Surgical Mycoses edited by Prof Ernest Laplace of Philadelphia is another subject so treated while that of Thoracic Surgery by Prof J McFadden Gaston of Atlanta forms a special department the value of which will become apparent Several sections will be found to have undergone modifications of value to the general practitioner That of Oral Surgery under Dr R Matas of New Orleans will be found to contain a review of the minor surgery of the teeth limited in extent to the necessities of the physician About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

,2015-07-04 Excerpt from Annual of the Universal Medical Sciences 1892 Vol 1 It is with a feeling of great satisfaction that the editor has the honor of presenting the fifth series of the Annual to the medical profession Thanks to the devotion of the members of the associate staff and to their willingness to comply with all measures calculated to increase the practical usefulness of the work the general character of the articles indicates that a proper conception of its true purpose has finally been reached and that uniformity so difficult of attainment in publications of great magnitude representing the labor of so many writers has become an element worthy of recognition Considering that the gradual evolution of the Annual to the state of perfection to which it is hoped it will some day be brought involves not only the intricacies usually accompanying editorial work but many others occasioned by the immensity of the undertaking the rapidity with which the yearly work of preparation must of necessity be performed and the small army of co operators engaged in it such a result so early in the career of the publication augurs well for its future For the medical press in general the deepest gratitude is entertained About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Annual of the Universal Medical Sciences, Vol. 2 Charles E. Sajous,2017-12-16 Excerpt from Annual of

the Universal Medical Sciences Vol 2 A Yearly of the Progress of the General Sanitary Sciences Throughout the World A case of retrograde amnesia is related 382 in a man aged 21 who fell from his horse and lost consciousness but regained it al most instantly recalling the incident and method of his fall quite distinctly Ten minutes later however his expression changed the face became pale then ushed and he could no longer remem ber anything connected with his fall or any event three or four days preceding it For events prior to that period his memory was quite clear Five or six days later the lost days were

recovered and his memory was as complete as before the accident About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **Annual of the Universal Medical Sciences, 1894, Vol. 1**

Charles E. Sajous, 2017-10-18 Excerpt from Annual of the Universal Medical Sciences 1894 Vol 1 A Yearly Report of the Progress of the General Sanitary Sciences Throughout the World IT was hoped judging from the fact that the majority of manuscripts forming the text of the annual had promptly come to hand that the work could be placed

before the profession much earlier this year than ever before Unfortunately all ex pectations in this direction were annihilated by the tardy arrival of a few papers and it was only by dint of the greatest effort in both editorial and publishing departments that the seventh series could be made to appear as early as any preceding issue To the members of the editorial staff who by their promptness rendered possible even as good a showing as is made the editor wishes to express his deep gratitude the extent of the favor thus conferred upon him is far beyond their estimate About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **Annual of the Universal Medical Sciences, Vol. 1**

Charles E. Sajous, 2017-10-11 Excerpt from Annual of the Universal Medical Sciences Vol 1 A Yearly Report of the Progress of the General Sanitary Science Throughout the World IN presenting the sixth issue of the annual to the medical profession the editor must again acknowledge his gratitude to the members of the editorial staff who by their promptness and kindly interest have facilitated the work of the central depart ment The temporary removal of the latter to Paris tended greatly to complicate matters while the introduction into the as sociate staff of a number of foreign authors added at least one month s work in translation revision etc to the usual quantum To the promptness of the majority of the associates was added the usual willingness of the editor s immediate assistants to do all in their power to diminish the arduousness of his yearly task and these elements supplemented by the efforts of the publishers to execute as rapidly as practicable the mechanical portion of the work made it possible to issue it at the usual time About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the
