Jan-Werner Müller

Another Country German Intellectuals Unification And National Identity

Christopher C. DeMuth, Yuval Levin

Another Country German Intellectuals Unification And National Identity:

Another Country Jan-Werner Müller, Jan-Werner Müller, 2000-01-01 This important book not only examines changing notions of nationhood and their complicated relationship to the Nazi past but also charts the wider history of the development of German political thought since World War II while critically reflecting on some of the continuing blind spots among German writers and thinkers

Antifascist Humanism and the Politics of Cultural Renewal in Germany Andreas Agocs, 2017-07-14 A study of German traditions of cultural renewal from their origins in antifascist activism in German exile communities in Europe and Latin America during World War II to their failure during the emerging Cold War in occupied Germany and the early German Democratic Republic

German National Identity in the Twenty-First Century Ruth Wittlinger, 2010-10 This book shows that German national identity has undergone considerable changes since unification in 1990 Due to the external pressures of the post cold war world but also due to domestic developments such as recent dynamics of collective memory Germany has re emerged as a confident nation which is less hesitant to assert its national interest

German Intellectuals, Unification and National Identity Jan-Werner Müller, 1996

Old Europe, New Europe and the Transatlantic Security Agenda Kerry Longhurst, Marcin Zaborowski, 2013-09-13 The post September 11th security policies of Poland the UK France the US and Germany presented in this new book illustrate how and why the Atlantic community ruptured over Iraq a result in part it is argued of the existence of particular national strategic cultures Whilst the longer term effects of Iraq for the transatlantic security agenda have yet to fully transpire what is certain is that the EU s ambitions to become a credible security actor have been seriously questioned as has the notion of multilateralism as an international norm as has the function of international law The book addresses these issues by considering the evolution of the EU s role in the world and the development of American perspectives on the transatlantic security agenda This volume was previously published as a special issue of the journal European Security

Strategic Culture, Securitisation and the Use of Force Wilhelm Mirow, 2016-04-14 This book investigates and explains the extent to which different liberal democracies have resorted to the use of force since the 9 11 terrorist attacks The responses of democratic states throughout the world to the September 2001 terrorist attacks have varied greatly This book analyses the various factors that had an impact on decisions on the use of force by governments of liberal democratic states It seeks to explain differences in the security policies and practices of Australia Canada France Germany and the UK regarding the war in Afghanistan domestic counterterrorism measures and the Iraq War To this end the book combines the concepts of strategic culture and securitisation into a theoretical model that disentangles the individual structural and agential causes of the use of force by the state and sequentially analyses the impact of each causal component on the other It argues that the norms of a strategic culture shape securitisation processes of different expressions which then bring about distinct modes of the use of force in individual security policy decisions While governments can also deviate from the constraints of a strategic culture this is

likely to encounter a strong reaction from large parts of the population which in turn can lead to a long term change in strategic culture This book will be of much interest to students of strategic culture securitisation European politics security studies and IR in general **The Statesman's Yearbook 2007** B. Turner, 2017-02-07 The Statesman's Yearbook now in a new enlarged format contains profiles of every country in the world and includes 20% new content All print purchases now receive online access at no extra cost with a single user licence giving access to the full text online updated regularly and fully searchable For queries sybinfo palgrave com **'Heimat'** Friederike Eigler, Jens Kugele, 2012-10-01 The concept of Heimat with its seemingly pre or anti modern connotations of rootedness in a place of origin is central to a critical understanding of German history and culture Over the course of the past fifteen years scholars across a range of disciplines have found new ways to examine the changing notions of Heimat its multifaceted cultural literary and visual history its gendered connotations and its national and ideological appropriations This anthology is the first to examine cultural manifestations of Heimat by giving special consideration to issues of memory and space The contributions to this volume challenge static notions of place often associated with Heimat Instead they explore the social and cultural production of places of belonging as they emerge in literary and visual narratives ranging from 1800 to 2000 and beyond Although the anthology includes historical perspectives on Heimat its overall objective is not to trace its cultural or literary history but to place this complex term into new conceptual contexts Drawing attention to manifestations of Heimat within German literary and cultural studies provides a rich ground for exploring the transformation of locality in trans national contexts **German Politics and Society**, 2001 *The Statesman's Yearbook 2009* B. Turner, 2017-01-12 This edition is fully updated and contains more information and analysis than ever before A foldout colour section provides a political world map and flags for all 193 countries Each copy comes with online access to the full text at no extra cost Unlimited user upgrades are also available for libraries who wish to network the data Nations and Nationalism Guntram H. Herb, David H. Kaplan, 2008-05-22 Nations and Nationalism helps students researchers and other interested readers explore national identities and nationalistic movements in historical context Organized chronologically its four volumes combine thematic essays on different characteristics of nationalism with case studies of key historical developments involving specific nations at specific times The encyclopedia focuses on Europe Latin America Africa and Asia with featured coverage of nationalist cultural creations including literature music symbols and mythologies *Bulletin*, 2001 Contesting the "other Germany" Andreas Agocs, 2009 Rock 'n' Roll and Nationalism Mark Yoffe, Andrea Collins, 2005 In the mid twentieth century pop music joined classical and folk as an important site of the formation and renewal of nationalism This book deals in essays with the interplay between national and nationalistic identities and emotions and the rock music idiom This enquiry brings together the talents of observers of popular music **Liberalism, Anti-semitism, and Democracy** Peter G. J. Pulzer, 2001 This volume by a distinguished group of historians and political scientists makes an original contribution to the history of

democracy in modern Europe It examines the history of liberalism anti-Semitism and democracy and the strengths and weaknesses of different democratic regimes and their evolution since the Second World War Nordic, Central, and Southeastern Europe Wayne C. Thompson, 2007-08 *Religion and the American Future* Christopher C. DeMuth, Yuval Levin, 2008 Religious belief is thriving in America today even though it seems under assault as seldom before attacked by secularists scientists and increasingly vocal atheists constrained by judges and civil libertarians mocked by contemporary artists and treated pragmatically if not cynically by politicians seeking votes This book explores the enduring strength of religion in American life Faith and religious observance are not obsolete or incompatible with modern society on the contrary the religious principles that guided the Founders continue to bind the nation and justify human endeavor In *Religion and the American Future* a distinguished group of scholars examine the future of religion in America Michael Novak John C Green Leon R Kass Douglas W Kmiec Roger Kimball and Marcello Pera contemplate in turn the relationship of religion to the dominant secular realms of politics science law and art They argue that the religious and the secular realms should construct a mutual and productive understanding that faith based voting is not the threat it often seems that science cannot answer humanity's deepest moral inquiries and that the United States Constitution presupposes the existence of God The volume concludes with an instructive look at Europe and the troubling implications of turning away from religious belief altogether *Religion and the American Future* is a lively learned dialogue on the role of religion in American society The contributors raise their voices in opposition to the tide of cynicism and constraint that often overwhelms religion in public life and argue that tolerance respect and free expression must define the future of religion in America Book jacket **Ambiguous Memory** Siobhan Kattago, 2001-07-30 Explores East and West German responses to their Nazi past and the role of memory in the building of a new national identity in reunified Germany *Hans Jürgen Syberberg and His Film of Wagner's Parsifal* Solveig Olsen, 2006 While much has been published abroad about the German filmmaker and author Hans Jürgen Syberberg this is the first English monograph about him Author Solveig Olsen presents a biographical overview of the controversial artist and his body of work and offers an in depth analysis of Syberberg's film of Richard Wagner's *Parsifal* and his later works Syberberg gained international fame as a filmmaker with the films of his German Cycle which included *Our Hitler* a study of the Hitler potential in human nature *Parsifal* of 1982 concluded the German Cycle Preserving Wagner's libretto and score the film uses the visual component to imbue the work with a surprising interpretation In addition to the medieval story about the Grail seeker the director draws on several other frames of reference such as the theories of Freud and Jung alchemy and Syberberg's main aesthetic views and philosophy that have gone unrecognized until now Olsen explores the role of *Parsifal* as Wagner's artistic and philosophical testament and the implications of Syberberg's reinterpretation *Ossi Wessi* Donald Backman, Aida Sakalauskaite, 2008 *Ossi Wessi* includes the proceedings of the fourteenth annual Interdisciplinary German Studies Conference at the University of California Berkeley 2006 which explored issues

surrounding the Berlin Wall both pre and post reunification in language literature and visual media The collected articles discuss the situation of the Berlin Wall describing its portrayal as both a dividing and uniting boundary and often discussing the continued existence of the Wall in the minds of Germany's citizens The multi disciplinary range of approaches contained in this volume reveals how diverse the portrayals of the history of the Wall have been as well as how controversial the division of Germany remains today Topics covered in this collection include Wende Literature and film linguistic changes and attitudes since 1989 the complicated history of the Neo Nazis and the visual arts Although Ossi Wessi is by no means a comprehensive reference work each of its essays serve as a though provoking springboard for further research

Another Country German Intellectuals Unification And National Identity Book Review: Unveiling the Magic of Language

In an electronic digital era where connections and knowledge reign supreme, the enchanting power of language has become more apparent than ever. Its ability to stir emotions, provoke thought, and instigate transformation is truly remarkable. This extraordinary book, aptly titled "**Another Country German Intellectuals Unification And National Identity**," published by a very acclaimed author, immerses readers in a captivating exploration of the significance of language and its profound effect on our existence. Throughout this critique, we shall delve into the book's central themes, evaluate its unique writing style, and assess its overall influence on its readership.
