**Who can bring peace? The role of external actors in the Israeli-Palestinian peace-process** Julia Heise,2005-05-21 Scientific Essay from the year 2005 in the subject Politics Region Near East Near Orient grade 63% 1 7 University of

Edinburgh course The Middle East in International Politics language English abstract The Arab Israeli conflict the dominant theme regarding the International Relations of the Middle East is one of the most bitter protracted and intractable conflicts of modern times Shlaim 2005 242 At its core lies the Israeli Palestinian problem which will be addressed in this essay and which mainly refers to the dispute between the Jewish and Palestinian national movements over Palestine 1 This dispute is multidimensional religious political cultural economic and psychological elements pile up and feed each other to create a seemingly indissoluble impasse Korany 2005 64 Some attempts have been made in the past to find a peaceful solution for Israelis and Palestinians but these did not result in the success that was hoped for However by considering several recent developments it appears that new opportunities to end the conflict are within reach Against this background it becomes necessary to discuss the impact of Israelis Palestinians and external actors on a possible peace which will be the purpose of this essay The paper first provides an overview about the main issues of the Israeli Palestinian dispute Section two then reflects on the development of the peace process in the past and in this context analyses the roles of Israel Palestine and external actors that were involved This is essential to be able to draw a profound conclusion regarding the current situation which is discussed in section three by addressing two questions A What are the chances for peace B Who plays a major role in this context The essay concludes by answering the question of whether it is only the conflict parties and not external actors who could bring peace 1 Shlaim 2005 242 However the conflict is complicated by inter Arab relations and the involvement of outside powers

**The Middle East, Abstracts and Index** ,2002      **The Case for Peace** Alan Dershowitz,2011-01-06 In The Case for Peace Dershowitz identifies twelve geopolitical barriers to peace between Israel and Palestine and explains how to move around them and push the process forward From the division of Jerusalem and Israeli counterterrorism measures to the security fence and the Iranian nuclear threat his analyses are clear headed well argued and sure to be controversial According to Dershowitz achieving a lasting peace will require more than tough minded negotiations between Israelis and Palestinians In academia Europe the UN and the Arab world Israel bashing and anti Semitism have reached new heights despite the recent Israeli Palestinian movement toward peace Surveying this outpouring of vilification Dershowitz deconstructs the smear tactics used by Israel haters and shows how this kind of anti Israel McCarthyism is aimed at scuttling any real chance of peace

**Britain and the Conflict in the Middle East, 1964-1967** Moshe Gat, 2003-02-28 In this comprehensive study Gat looks at British policy in the period leading up to the Six Day War Although Britain holds center stage in this account the study discusses in some detail American policy and its effect on the Arab Israeli conflict It also focuses on the Middle East water dispute its impact on future events and eventually the outbreak of war in 1967 This is a fascinating look at the process by which the Middle East became yet another Cold War playground To date most scholars on the Arab Israeli conflict have focused on the events of the Six Day War rather than on the tumultuous years prior to the war Gat is the first to examine this turbulent yet decisive chapter in the history of the Middle East within the context of the Cold War while making extensive use of British American and Israeli archives

**The Palestinian-Israeli Peace Agreement** Institute for Palestine Studies (Washington, D.C.), 1994

Missed Opportunities for Peace Ronald J. Young, 1987 Ronald Young's central thesis is that from 1981-86 Israeli and Arab leaders signaled on several occasions their willingness to move toward Israeli Arab peace but the Reagan administration did not respond to their appeals The Bush administration would do well to read and learn from this illuminating document Young and his wife Carol Jensen served as Middle East representatives of the American Friends Service Committee AFSC from 1982-85 AFSC's presence in the region began in 1949 Young notes several key opportunities that were missed including Washington's failure to oppose unequivocally Israel's invasion of Lebanon the failure of the Reagan administration to capitalize on the president's landslide victory and the resulting reduced domestic political pressure by implementing new initiatives and the US propensity to act unilaterally when multilateral proposals including working more effectively through the United Nations could have been more productive From <http://www.jstor.org> Sep 23 2016
