Didier Musso

Question Paper 1 Business Grade 11 November 2013:

University Trends Jonathan Coulson, Paul Roberts, Isabelle Taylor, 2014-09-15 A university campus is a place with special resonance conjuring images of cloistered quadrangles and wood panelled libraries often echoing centuries of scholarly tradition. And yet it is also a place of cutting edge science, interactive learning, youth vibrancy and energy. It is this dual nature which makes the physical environment of a university so dynamic as well as a highly challenging landscape to design and manage successfully. Today the scale of the pressures and the rate of change facing higher education institutions are greater than ever. Squeezed public spending, rising tuition fees and the growing education ambitions of developing nations are set against a backdrop of rapid technological progress and changing pedagogies. What are the repercussions for the physical realities of university planning and architecture? And how are university campuses adapting to contend with these pressures? University Trends introduces the most significant widespread and thought provoking trends in campus design today. Part 1 identifies current trends such as starchitecture, large scale campus extensions, adaptive reuse and international branch campuses. Part 2 profiles each trend via highly illustrated global case studies of well publicised as well as lesser known projects. The essential guide to current and future trends in campus design.

A Leader's Destiny Elias Aboujaoude, 2024-05-21 A psychiatrist puts leadership on the couch with a provocative exploration of its crucial, often ignored, psychological and personal character foundations. Elias Aboujaoude's distinctive exploration of leadership explains how our cultlike obsession with leadership gives narcissists and sociopaths an edge and results in leadership failure everywhere we look and how resisting the imperative to rise at all costs leaves many with an inferiority complex. His takedown of the leadership industrial complex pokes a very sharp elbow into an industry seemingly united in a modern form of alchemy to create leadership gold: a waste of time and money. Aboujaoude vividly illustrates since leaders emerge from a unique combination of personal psychological and situational factors that cannot be easily controlled or manipulated no matter how gifted the executive coach. This bracing take on a classic subject provides new insight into the way psychology aligns with the requirements of effective and happy leadership. The result is to empower us to understand ourselves and step up if we have what it takes to lead or find equally rewarding often superior ways to achieve fulfillment if we don't.

On Your Mark Thomas R. Guskey, 2014-08-05 Create and sustain a learning environment where students thrive and stakeholders are accurately informed of student progress. Clarify the purpose of grades, craft a vision statement aligned with this purpose and discover research based strategies to implement effective grading and reporting practices. Identify policies and practices that render grading inaccurate and understand the role grades play in students' future success and opportunities.
