In the course of the last two decades this area of research has witnessed a veritable boom in various countries and disciplines. As a consequence the study of the relation of culture and memory has diversified into a wide range of approaches. This handbook is based on a broad understanding of cultural memory as the interplay of present and past in sociocultural contexts. It presents concepts for the study of individual remembering in a social context, group and family memory, national memory, the various media of memory and finally the host of emerging transnational *lieux de mémoire* such as 9.11.

Authors in Context: Charles Dickens Andrew Sanders, 2009-04-23 Charles Dickens explores the work of the most popular author of his age in relation to the contradictory impulses of Victorian society, looking at the vital interconnection between his life and his art. His novels resonate well beyond his own age and continue to be recontextualized on the stage, on film and on television.

The Cambridge History of Victorian Literature Kate Flint, 2012-03-01 This collaborative History aims to become the standard work on Victorian literature for the twenty-first century. Well-known scholars introduce readers to their particular fields, discuss influential critical debates and offer illuminating contextual detail to situate authors and works in their wider cultural and historical contexts. Sections on publishing and readership and a chronological survey of major literary developments between 1837 and 1901 are followed by essays on topics including sexuality, sensation, cityscapes, melodrama, epic and economics. Victorian writing is placed in its complex relation to the Empire, Europe and America as well as to Britain's component nations. The final chapters consider how Victorian literature and the period as a whole influenced twentieth-century writers. Original, lucid and stimulating, each chapter is an important contribution to Victorian literary studies. Together the contributors create an engaging discussion of the ways in which the Victorians saw themselves and of how their influence has persisted.

English Cathedrals Andrew Sanders, 2015 England is blessed with many beautiful cathedrals, including the world-renowned Durham with its geometrically carved pillars, Wells with its astonishingly graceful scissor arch and the gloriously uplifting Ely and its octagonal tower. This book is a highly readable account of the history of England's cathedrals from Anglo-Saxon times to the present day. It discusses their significance from a time when faith was an integral part of everyday life to the present, more secular society. It also discusses the developments in cathedral architecture over the centuries and the English cathedral city.

Charles Dickens Andrew Sanders, 2003 The *Authors in Context* series, a subseries of the Oxford World's Classics series, examines the work of major authors in relation to their own times and to the present day. Combining history with lively literary discussion, each volume provides comprehensive insight into texts in their context. Charles Dickens was both a representative Victorian and an artist who is quintessentially a Post-Romantic. He was the most popular author of his age and the one who most vividly reflected the contradictory impulses of Victorian society. Its

energy and invention as much as its social and political anomalies This book explores Dickens's interest in the urban phenomenon which so marks nineteenth century culture and it looks at the vital interconnection between his life and his art Like his character David Copperfield Dickens lived his life and pursued his career thoroughly in earnest but he was also a great comic writer whose work resonates well beyond his own age and continues to be recontextualized on the stage on film and on television

Essays on Ricardian Literature in Honour of J.A. Burrow Alastair J. Minnis, Charlotte C.

Morse, Thorlac Turville-Petre, 1997 *Essays on Ricardian Literature* develops issues and themes first broached in John Burrow's ground breaking book *Ricardian Poetry* and incorporates a bibliography of his published writings which have revolutionized critical appreciation of medieval literature The contributors to this volume all leading scholars in the field explore such areas as the status of Anglo Latin and the influence of French culture on the Ricardian court offer radical rereadings of some more familiar works such as *Sir Gawain and the Green Knight* *Pearl* and *Patience* and demonstrate how closely the literature of the period is bound up with political and social conditions Written in honour of John Burrow to mark his deep and beneficial influence upon the study of medieval literature the 15 essays in this volume combine to provide a detailed and thorough examination of medieval literature from the Middle English romance and Italian Trecento poetics to Chaucer's *Canterbury Tales* and Langland's *Piers Plowman*

Memory and History in

George Eliot Hao Li, 2000-04-18 This book explores the interrelations between communal memory and the sense of history in George Eliot's novels by focusing on issues such as memory and narrative memory and oblivion memory and time and the interactions between personal communal and national memories Hao Li offers a fresh critical reading informed by major nineteenth century theories and argues for a reappraisal of George Eliot's complex understanding of the dialects of memory and history an understanding that both integrates and transcends the positivist and the romantic historical approaches of her time

Innovation and Continuity in English Studies

Herbert Grabes, 2001 What the contributors to this volume commemorating the 50th anniversary of IAUPE demonstrate is above all the remarkable broadening of the field of English studies over the past few decades New domains of enquiry have been added while the traditional ones are not only still there but have been reinvigorated by new research paradigms The result has been a marked increase in intra disciplinary competition that reflects broader shifts in cultural understanding Although quite a few of the contributions are concerned with precisely this latter dynamic others demonstrate that the detailed working out of more narrowly framed problem areas is crucial if English studies is to meet the challenges of the future
