Bernie Sanders Defense Budget:

It Was All a Lie Stuart Stevens, 2021-09-14 NEW YORK TIMES BESTSELLER From the most successful Republican political operative of his generation a searing unflinching and deeply personal expos of how his party became what it is today A blistering tell all history In his bare knuckles account Stevens confesses that the entire apparatus of his Republican Party is built on a pack of lies The New York Times Stuart Stevens spent decades electing Republicans at every level from presidents to senators to local officials He knows the GOP as intimately as anyone in America and in this new book he offers a devastating portrait of a party that has lost its moral and political compass This is not a book about how Donald J Trump hijacked the Republican Party and changed it into something else Stevens shows how Trump is in fact the natural outcome of five decades of hypocrisy and self delusion dating all the way back to the civil rights legislation of the early 1960s Stevens shows how racism has always lurked in the modern GOP s DNA from Goldwater s opposition to desegregation to Ronald Reagan s welfare queens and states rights rhetoric He gives an insider s account of the rank hypocrisy of the party s claims to embody family values and shows how the party s vaunted commitment to fiscal responsibility has been a charade since the 1980s When a party stands for nothing he argues it is only natural that it will be taken over by the loudest and angriest voices in the room *U.S. Military Forces in FY 2017* Mark F. Cancian, 2016-05-26 This timely study examines the Defense Department s FY 2017 budget proposal for the size and shape of military forces what that proposal means for cost strategy and risk and challenges the proposal faces in implementation The study covers all four military services plus government civilians contractors and department wide initiatives [Today's Foreign Policy Issues](#) Trevor Rubenzer, 2017-06-15 Examines the perspectives of Democrats and Republicans on dozens of major foreign policy issues of the 21st century illuminating both areas of consensus and issues where partisan divisions are wide From the earliest days of the republic through the Cold War and to the present day American foreign policy has been colored by the beliefs and values of America s major political parties Surveying the breadth and depth of partisan divisions on a variety of key foreign policy issues yields a better understanding of how partisanship has helped define U S leadership in the modern era This book treats 38 individual foreign policy issues each chosen for its timeliness and importance to American interests in the 21st century For example readers will learn about the partisan feelings regarding U S foreign policy toward Cuba that surfaced in the wake of President Obama s visit to Cuba in 2016 and his decision to resume diplomatic relations These feelings serve as an excellent example of both partisan and intergovernmental divisions on a key U S foreign policy issue Each entry contains an historical overview that will quickly bring readers up to speed on the issue followed by an authoritative survey of positions and statements held by presidents key leaders of Congress and other important voices in both the Republican and Democratic parties The book will serve as a vital and highly accessible reference for anyone undergraduate university students advanced high school students and general readers who needs a one stop source for information about partisanship and U S foreign

policy Trump, Congress and the 2018 Defence Budget: A Primer for Australia Ashley Townshend, Dougal Robinson, Brendan Thomas-Noone, 2017-09-22 During the 2016 presidential campaign Donald Trump complained that the United States military is a disaster and promised to make it so big so powerful so strong that nobody absolutely nobody is gonna mess with us ¹ So far the president has not delivered on his rhetoric Although Trump has requested additional funding for defence the magnitude of the increase falls well short of his promises Republican defence hawks are advocating for additional resources above the president's request But a combination of ongoing spending caps imposed by the Budget Control Act BCA and political gridlock in Washington will prevent Congress from passing more than a modest increase in defence spending for 2018 Washington's inability to return the defence budget to pre BCA levels is having a serious impact on America's global strategic presence As Chairman of the Joint Chiefs of Staff General Joseph Dunford warned in June Without sustained sufficient and predictable funding I assess that within five years we will lose our ability to project power the basis of how we defend the homeland advance US interests and meet our alliance commitments ² His comment was more than a bureaucratic bid for extra funding Ongoing conflicts in the Middle East and growing operational demands in Europe and Asia are taxing the military's ability to procure train repair and deploy its forces at sustainable levels The US military cannot continue to modernise and fix these military readiness problems without greater political certainty and a commitment to higher spending While there is no solution in sight to the defence budget crisis there are signs that America's strategic presence in Indo Pacific Asia will be prioritised in this budget cycle Congress has emphasised the need to strengthen regional capabilities in response to Chinese and North Korean challenges including by increasing cooperation with allies and bolstering extended deterrence Like the White House Congress is allocating resources to some readiness issues though not at levels that will satisfy the Pentagon as well as supporting advancements in space cyber electronic warfare and ballistic missile systems Australia should welcome this sustained military engagement in the Indo Pacific but remain cautious about Washington's ability to reverse the impact of budget uncertainty on the American armed forces *Grand Strategies of the Left* Van Jackson, 2023-11-02 Why are progressives often critical of US foreign policy and the national security state What would a statecraft that pulls ideas from the American left look like *Grand Strategies of the Left* brings the progressive worldview into conversation with security studies and foreign policy practice It argues that American progressives think durable security will only come by prioritizing the interconnected conditions of peace democracy and equality By conceiving of grand strategy as worldmaking progressives see multiple ways of using foreign policy to make a more just and stable world US statecraft including defense policy should be retooled not for primacy endless power accumulation or a political status quo that privileges elites but rather to shape the context that gives rise to perpetual insecurity Progressive worldmaking has its own risks and dilemmas but expands how we imagine what the world is and could be *The Politics of Public Budgeting* Irene S. Rubin, 2019-01-21 Using a power struggles theme to examine the dynamics of budgeting The

Politics of Public Budgeting shines a bright light on the political jockeying between interest groups parties officials policymakers and the public Bestselling author Irene S Rubin explains budgeting changes over time by setting issues like the federal deficit and health care expenditures in political and comparative context The Ninth Edition offers students recent examples of public budgeting from all levels of government emphasizing the relationship among them Analyzing each strand of the decision making process Rubin shows the extraordinary coordination involved in passing a budget and achieving accountability
