Rhetoric and Guns Lydia Wilkes, Nate Kreuter, Ryan Skinnell, 2022-04-01 Guns hold a complex place in American culture Over 30 000 Americans die each year from gun violence and guns are intimately connected to issues of public health as is evident whenever a mass shooting occurs But guns also play an

important role in many Americans lives that is not reducible to violence and death as tools sporting equipment and identity markers They are also central to debates about constitutional rights as seen in ongoing discussions about the Second Amendment and they are a continuous source of legislative concern as apparent in annual ratings of gun supporting legislators Even as guns are wrapped up with other crucial areas of concern they are also fundamentally a rhetorical concern Guns and gun violence occupy a unique rhetorical space in the United States one characterized by silent majorities like most gun owners vocal minorities like the firearm industry and gun lobby and a stalemate that fails to stem the flood of the dead How Americans talk deliberate and fight about guns is vital to how guns are marketed used and regulated A better understanding of the rhetorics of guns and gun violence can help Americans make better arguments about them in the world However where guns are concerned rhetorical studies is not terribly different from American culture more generally Guns are ever present and exercise powerful effects but they are commonly talked about in oblique unsystematic ways Rhetoric and Guns advances more direct systematic engagement in the field and beyond by analyzing rhetoric about guns guns in rhetoric and guns as rhetoric particularly as they relate to specific instances of guns in culture The authors attempt to understand rhetoric s relationship to guns by analyzing rhetoric about guns and how they function in and as rhetoric related to specific instances in media coverage political speech marketing and advertising Original chapters from scholars in rhetorical studies communication education and related fields elucidate how rhetoric is used to maintain and challenge the deadly status quo of gun violence in the United States and extend rhetoricians sustained interest in the fields relationships to violence brutality and atrocity Contributors Ira J Allen Brian Ballentine Matthew Boedy Peter Buck Lisa Corrigan Rosa Eberly Kendall Gerdes Ian E J Hill Nathalie Kuriowa Lewis Patricia Roberts Miller Craig Rood Bradley Serber Catherine R Squires Scott Gage **Bernie Sanders the Man the Mittens the Legend Mood Meme Sweatshirt** Teresa Teresa

Cazenave,2023-09-15 Kindness Wars rescues our understanding of kindness from the clutches of an intellectually and morally myopic popular psychology and returns it to the stage of big ideas in keeping with the important Enlightenment era debates about human nature and possibilities Cazenave conceptualizes kindness not just as a benevolent feeling a caring thought or a generous action but as a worldview a theory or an ideology that explains who we are and justifies how we treat others Here kindness wars refer to the millennia old kindness theory and ideological conflicts over what kind of societies humans can and should have The book s title denotes the two types of kindness wars it analyzes conflict over 1 whether to be

kind or not i.e. the conflicts between kindness and other societal values and ideologies and 2 what it means to be kind i.e. the wars within kindness over different ideas as to what it means to be kind and to whom Using a conflict theoretical perspective Kindness Wars examines the history of the kindness concept its many struggles with opposing notions of our true nature and possibilities and what the lessons of that history and those battles offer us toward the development of a large robust and politically engaged conceptualization of kindness **Record Research**,1969 **Bernie Sanders: In His Own Words**
