Bernie Sanders Israeli Citizenship:

The Violence of Hate Jack Levin, Jim Nolan, 2016-07-08 The Violence of Hate Fourth Edition presents a systematic introduction to issues related to the sociology and social psychology of hate and violence as they target people who are different in socially significant ways. It offers an integrated perspective on the causes and consequences of hate motivated violence and the reasons we have not always been effective in stopping it. Not only do the authors address the experiences of racial, ethnic and religious groups under attack but also those who are victimized because of their sexual orientation, gender, gender identity, age or disability status. In addition, they include a chapter dedicated solely to the exploration of hate crimes, an evolving legal concept and public policy domain as well as a chapter in which they suggest approaches that may be effectively applied collectively to the reduction of hate violence. As in earlier versions of The Violence of Hate, Levin and Nolan take the position that support for hate motivated violence originates not in the ranting and raving of a few bigoted extremists at the margins of society but in the tacit approval of ordinary, even decent people who are located squarely in the mainstream. Updates to the Fourth Edition Chapter 1: New discussions of structural and cultural factors illustrated by the racial conflicts in Ferguson, Missouri, New York City and Baltimore. New presentation of the recent ADL survey indicating degree of bigotry in more than 100 countries. New discussion of how threatening situations inspire increases in hate violence against a range of vulnerable groups. Chapter 2: New chapter on hate violence around the world involving the experiences of Roma in Europe, sexual orientation and gender identity violence and anti-Semitic and anti-Islamic violence in European countries. Includes discussions of violent responses to anti-Mohammed cartoons in Europe and North America, sectarian violence in Northern Ireland and the Middle East, and police versus the black community in the United States. Chapter 3: Updated discussion of issues related to reporting hate incidents and collecting hate crime data. Expanded presentation of hate crime laws at the federal and state levels. New discussions of the problems associated with policing hate and the role of social media in spreading hate. Chapter 4: New section on mass murder in the name of hate, including the Sikh Temple massacre outside of Milwaukee, the Charleston Black Church massacre, Baumhammers killing spree targeting immigrants, Jews and non-whites in the Pittsburgh area, Taylor's killing spree targeting whites and black church burnings in the 1990s and 2015. New discussion of thrill hate crimes against the homeless, people with disabilities and gays. Features: Uses a single conceptual framework to explore racism in American society and the historical occurrence of anti-Semitism with special emphasis on Nazi Germany. The experiences of other groups such as Armenians massacred in 1915 and gay students victimized by violence are also examined to provide a broad comparative perspective. Shows the economic and psychological benefits of hate, making it an expected even rational behavior. Examines the evolution of hate crime legislation in the United States and the impact of this legislation on the institutions of law and criminal justice. Shows how prejudice and hate can be addressed locally but have an impact globally. The final chapter argues that respect for differences requires rebellious and even deviant behavior.

Israel

in the American Mind Shaul Mitelpunkt, 2018-05-10 This book examines the changing meanings Americans and Israelis invested in the relationship between their countries from the late 1950s to the 1980s. Bringing to light previously unexamined sources this study is the first to investigate the intricate mechanisms that defined and redefined Israel's place in American imagination through the war-torn 1960s and 1970s. Departing from traditional diplomatic histories that focus on the political elites alone, Shaul Mitelpunkt places the relationship deep in the cultural, social, intellectual, and ideological landscapes of both societies. Examining Israeli propaganda operations in America, Mitelpunkt also pays close attention to the way Israelis manipulated and responded to American perceptions of their country and reveals the reservations some expressed towards their country's relationship with the United States. By contextualizing the relationship within the changing domestic concerns in both countries, this book provides a truly transnational history of US-Israeli relations. **THINK**

PALESTINE VOLUME IV Dr. Jamil E. Effarrah, 2025-02-21 Finding solutions to the Palestinians' dilemma is to think fairly about Palestine. To **THINK PALESTINE** is to understand the key to solving that region's problems, including the US' one-sided and blind supports to Israel. The weekly articles reflect comments on occurring events and are full of knowledge and facts. According to readers, every article enhances journalistic accuracy, historical correctness, and a living memory. Dr. Effarrah started writing in 1952 while a student at the American University of Beirut (AUB). As an Arab American independent thinker, he judges events according to their merits while acting as a participant observer of the one-sided American policy toward the Middle East that serves the interests of Israel. He records and highlights the facts in an attempt to find the key to unlocking the Palestinian, Arab, and Israeli conflicts. His personal feelings as a survivor of the Palestinian holocaust of 1948 and his interpretations of the proceedings represent a major part of the events that took place in that period. **Traces of Racial Exception**

Ronit Lentin, 2018-08-09 Positioning race front and centre, this book theorizes that political violence in the form of a socio-political process that differentiates between human and less than human populations is used by the state of Israel in racializing and ruling the citizens of occupied Palestine. Lentin argues that Israel's rule over Palestine is an example of Agamben's state of exception, Goldberg's racial state, and Wolfe's settler colony. The Israeli racial settler colony employs its laws to rule besieged Palestine while excluding itself and its Jewish citizen colonists from legal instruments and governmental technologies. Governing through emergency legislation and through practices of exception, emergency, necessity, and security, Israel positions itself outside domestic and international law. Deconstructing Agamben's Eurocentric theoretical position, Lentin shows that it occludes colonialism, settler colonialism, and anti-colonialism and fails to specifically foreground race. Instead, she combines the work of Wolfe, who proposes race as a trace of settler colonialism, and Weheliye, who argues that Agamben's western-centric understanding of exception fails to speak from explicitly racialized and gendered standpoints. Employing existing media, activist, and academic accounts of racialization, this book deliberately breaks from white Western theorizations of biopolitics, exception, and bare life, and instead foregrounds race and gender in analysing
