**Rhetoric and Governance under Trump** Bernd Kaussler,Lars J. Kristiansen,Jeffrey Delbert,2020-07-09 Rhetoric and Governance under Trump Proclamations from the Bullshit Pulpit analyzes the rhetoric of Donald Trump to argue that Trump's deeply illiberal rhetoric cruel policies corruption disruptive foreign policy and disdain for the rule of law makes him a textbook populist. However his embrace of mainstream conservative policies and the culture war narratives that come with them made him a rather conventional Republican. Being more plutocrat than populist Trump had to bridge this fundamental contradiction by employing populist and polarizing rhetoric alongside fabricated crises to uphold the veneer of being an anti status quo politician. Bernd Kaussler Lars J Kristiansen and Jeffrey Delbert argue that for Trump bullshit confrontational politics and fear has emerged as a vital political strategy. Through an analysis of Trump's first three years in office the authors find that President Trump governed using a communication strategy that a denied facts relied heavily on bullshit lies and fabricated counter narratives b attacked news outlets and the opposition to foster identity based polarization in order to sideline critics and stir up factions for specific political ends and c dismissed legitimate criticism of policies and the conduct of the administration and the president himself as fake news. Kaussler Kristiansen and Delbert argue that the repeated use of this strategy along with a mixture of public complacency and concerted efforts on the part of his own party has allowed Trump to work toward normalizing these lies and cover ups throughout his tenure only further exacerbating the highly polarized and partisan political environment in the United States. Scholars of rhetoric communication political science and media studies will find this book particularly useful.

*Chokepoint Capitalism* Cory Doctorow,Rebecca Giblin,2022-09-27 A call to action for the creative class and labor movement to rally against the power of Big Tech and Big Media. Corporate concentration has breached the stratosphere as have corporate profits. An ever expanding constellation of industries are now monopolies where sellers have excessive power

over buyers or monopsonies where buyers hold the whip hand over sellers or both In Chokepoint Capitalism scholar Rebecca Giblin and writer and activist Cory Doctorow argue we re in a new era of chokepoint capitalism with exploitative businesses creating insurmountable barriers to competition that enable them to capture value that should rightfully go to others All workers are weakened by this but the problem is especially well illustrated by the plight of creative workers From Amazon s use of digital rights management and bundling to radically change the economics of book publishing to Google and Facebook s siphoning away of ad revenues from news media and the Big Three record labels use of inordinately long contracts to up their own margins at the cost of artists chokepoints are everywhere By analyzing book publishing and news live music and music streaming screenwriting radio and more Giblin and Doctorow deftly show how powerful corporations construct anti competitive flywheels designed to lock in users and suppliers make their markets hostile to new entrants and then force workers and suppliers to accept unfairly low prices In the book s second half Giblin and Doctorow then explain how to batter through those chokepoints with tools ranging from transparency rights to collective action and ownership radical interoperability contract terminations job guarantees and minimum wages for creative work Chokepoint Capitalism is a call to workers of all sectors to unite to help smash these chokepoints and take back the power and profit that s being heisted away before it s too late
