Bernie Sanders Running Mate:

The Unprecedented 2016 Presidential Election Rachel Bitecofer, 2017-10-10 This book explains the 2016 presidential election through a strategic focus. In the primaries both parties faced challenges from insurgent outsiders riding waves of populist fervor in the electorate but only the Democrats were able to steer the nomination into the hands of their establishment favorite. Why weren't Republican elites able to stop Donald Trump from hijacking their party's nomination? Why did Hillary Clinton come up short on Election Day despite the fact that nearly everyone expected her to win after her opponent ran a haphazard campaign plagued by scandal after scandal? The research presented here argues that the Clinton campaign conducted the nearly perfect execution of the wrong electoral strategy, costing her the Electoral College and her chance to become America's first female president.

The Presidency of Joseph R. Biden Julian E. Zelizer, 2026-04-07 Leading historians offer the first look at Biden's four years in the White House. *The Presidency of Joseph R. Biden* presents a first draft of history by providing insights into how this one-term president fits within the broader historical forces shaping the United States in the twenty-first century. Acclaimed political historian Julian Zelizer brings together some of today's leading scholars to give balanced and strikingly original assessments of the major issues of the Biden years: from education and reproductive rights to the economy, labor relations, climate policy, race, Russia's invasion of Ukraine, and the culture wars. These incisive essays trace the full arc of Joe Biden's presidency from its early successes to the setbacks that ultimately consumed it. His domestic legislative achievements were hailed by some as the most momentous of any American presidency since the Great Society, while his foreign policy ably met the challenges posed by the nation's great power rivals. Yet by late 2024, Biden's legacy was in tatters, overshadowed by immigration, inflation, the war in Gaza, and the president's obvious physical decline. Written in a clear and accessible manner, *The Presidency of Joseph R. Biden* moves beyond the day-by-day journalistic coverage to provide the first comprehensive scholarly account of the Biden administration's achievements and eventual downfall. With contributions by Kathryn Cramer, Brownell Mar, a Cristina Garc, a Joel K. Goldstein, Michael Kazin, Daniel C. Kurtzer, Joyce Mao, Natalia Mehlman Petrzela, Khalil Gibran Muhammad, Timothy Naftali, Ekaterina Pravilova, Noah Rosenblum, Paul Sabin, Timothy Stewart, Winter Sean H. Vanatta, John Witt, and Mary Ziegler.

2016: the Campaign Chronicles JD Foster, 2017-01-19 How did Donald Trump, a man with zero direct political experience and no particular affiliation to either political party, go in the span of a two-year campaign from preposterous aspirant to President-elect of the United States? It will likely take years, if not decades, before a confident consensus develops, but formulating an answer begins with chronicling the key events in the campaign in the country and sometimes in the wider world as they happened. This book is an attempt to provide such a chronicle, by no means the last word but perhaps a useful and entertaining first word toward answering the question: What the heck?

Toppling Trump Samuel J. Best, Jeffrey W. Ladewig, 2024-07-05 This book tells the story of the 2020 presidential election campaign, exploring how Joe Biden secured the Democratic nomination and defeated

Donald Trump in the general election It argues that Democratic Party elites paved the way for Biden s victory enabling him to overcome numerous campaign missteps to defeat one of the largest wealthiest most competitive fields in history It details how elites discouraged potential rivals from entering the race orchestrated rules to truncate the field and steered voters toward Biden s candidacy both directly and indirectly It shows how they helped the Biden campaign overcome early defeats in the first several contests and turn his campaign around And it shows the critical role they played in mobilizing partisans to help Biden win the general election campaign and thwarting efforts to undermine his victory Simply put the book demonstrates that Biden would not have won the White House without maneuvering and manipulation by the Democratic establishment

The Making of the President 2016 Roger Stone,2017-01-31 In the tradition of Theodore White s landmark books the definitive look at how Donald J Trump shocked the world to become president From Roger Stone a New York Times bestselling author longtime political adviser and friend to Donald Trump and consummate Republican strategist comes the first in depth examination of how Trump s campaign tapped into the national mood to deliver a stunning victory that almost no one saw coming In the early hours of November 9 2016 one of the most contentious polarizing and vicious presidential races came to an abrupt and unexpected end when heavily favored presidential hopeful Hillary Clinton called Donald J Trump to concede shocking a nation that had only hours before given little credence to his chances Donald Trump pulled the

greatest upset in American political history despite a torrent of invective and dismissal of the mainstream media Stone a long time Trump retainer and confidant gives us the inside story of how Donald Trump almost single handedly harnessed discontent among Forgotten Americans despite running a guerrilla style grass roots campaign to compete with the smooth running and free spending Clinton political machine From the start Trump s campaign was unlike any seen on the national stage combative maverick and fearless Trump s nomination was the hostile takeover of the Republican party and a resounding repudiation of the failed leadership of both parties whose policies have brought America to the brink of financial collapse as well as endangering our national security Here Stone outlines how Donald Trump skillfully ran as the anti Open Borders candidate as well as a supporter of American sovereignty and how he used the Globalist trade deals like NAFTA to win over three of ten Bernie Sanders supporters The veteran adviser to Nixon Reagan and Trump charts the rise of the alt conservative media and the end of the mainstream media monopoly on voter impacting information dissemination This is an insider s view that includes studying opposition research into Bill Hillary and Chelsea Clinton s crimes and the struggle by the Republican establishment to stop Trump and how they underestimated him Stone chronicles Trump s triumph in three debates where he skillfully lowered expectation levels but skewered Mrs Clinton for the corruption of the Clinton Foundation her mishandling of government email and her incompetence as Secretary of State Stone gives us the inside word on Julian Assange Wikileaks Clinton campaign chief John Podesta Huma Abedin Anthony Weiner Carlos Danger Doug Band Jeffery Epstein and the efforts to hide the former first lady s infirmities and health problems Stone dissects the phony narrative that Trump was in cahoots with Russian strongman Vladimir Putin or that the e mails released by Wikileaks came from the Russians The Making of the President 2016 reveals how Trump brilliantly picked at Hillary Clinton s weaknesses particularly her reputation as a crooked insider and ignited the passions of out of work white men and women from the rust belt and beyond at a time when millions of Americans desperately wanted change Stone also reveals how and why the mainstream media got it wrong including how the polls were loaded and completely misunderstood who would vote Stone s analysis is akin to Theodore H White s seminal book The Making of the President 1960 It is both a sweeping analysis of the trends that elected Trump as well as the war stories of a hard bitten political survivor who Donald Trump called one tough cookie
