Turn the power switch to

Check that the needle is

fully raised.

Raise the presser foot.

Place thread spool on one

of the spool holders and

hold while threading.

Slip the thread into the first guide on the back of the machine and then take it through the long slit on the thread tension (fig. 1).

Take the thread down through the long slot A on the front of the machine, slip it into the thread regulator B, up into the slit of the thread take-up C and down again to the thread guide D on the needle clamp (fig. 2).

Thread the needle from front to back.

The eye of the needle is easy to see against the white plate on the presser foot shaft. Pull the thread approx. 10 cm (4") through the needle.

When using special threads such as metal or embroidery threads which wind quickly off the spool, thread the supplementary guide on the handle to control the thread feed.

When using the supplementary guide, take the thread directly from the spool to the guide and raise the handle (fig. 3). Continue threading as described above.

Quick needle threader

The needle threader is positioned on the right of the machine under the handwheel.

a) Lay the thread lightly across the threader.

b) Run the threader down the needle from top to bottom.

c) When it reaches the eye, press the threader gently and remove it once the thread is through the needle eye.
