**Cormac McCarthy's "The Road". Social Interactions and Social Relations** Sebastian Simbeck, 2018-11-19 Seminar paper from the year 2014 in the subject Didactics for the subject English Literature Works grade 3 3 1 3 University of Paderborn Institut für Anglistik und Amerikanistik course It's the end of the world as we know it The Apocalypse and other End of the World Narratives language English abstract In this essay I'd like to take a look at social interactions of individuals who find themselves in a world where

known values believes and rules seem to be invalid and where the individual survival seems to be the only aim to strive for But is survival the only need of people The Road with its cold bitter and ashen world where ethics and morale are lost where society as we know it is completely absent is a good basis for this research Maybe you ll be good at this I doubt it but who knows The one thing I can tell you is that you won t survive for yourself I know because I would never have come this far A person who had no one would be well advised to cobble together some passable ghost Breathe it into being and coax it along with words of love Offer it each phantom crumb and shield it from harm with your body McCarthy The Road Action is rational in so far as it pursues ends possible within the conditions of the situation and by means which among those available to the actor are intrinsically best adapted to the end for reasons Parsons 1937 These two epigraphs the first from Cormac McCarthy s The Road and the second from Parsons Structure of Social Action give us a slight hint about the importance of social relations and interactions and their outcomes As a consumer of this kind of post apocalyptic media you re thrown into these settings by either waking up from a dream or by regaining consciousness The setting and the new world order are already fixed Either people try to survive for their own while searching and hoping for others in order to have a higher chance of surviving or they are already a part of a community which fights against others in order to survive In both cases on the other hand those communities already do exist and in both cases it s always a question of the good against the bad While dealing with post apocalyptic media several questions came to my mind How came those communities and groupings and into being Which role do social interactions and social relations play in order to form a new kind of social system s after the previous known world order got destroyed by an apocalyptic event Social sciences usually deal with the reasons of social interactions and relations But they depend on existent fixed social values rules laws morale and religious believes since those aspects influence the actions of each and every individual **Shakespeare and the Modern Novel** Graham Holderness,2024-10-01

The Shakespearean novel is undergoing a renaissance as the long prose narrative form becomes reinvigorated through new forms of media such as television film and the internet Shakespeare and the Modern Novel explores the history of the novel as a literary form suggesting that the form can trace its strongest roots beyond the eighteenth century work of Daniel Defoe Henry Fielding and Samuel Richardson to Shakespeare s plays Within this collection well established Shakespeare critics demonstrate that the diversity and flexibility of interactions between Shakespeare and the modern novel are very much alive
