**33 Million People in the Room** Juliette Powell, 2009 Juliette Powell has provided a timely crash course on how to leverage your business's online presence. A must read for any aspiring entrepreneur, activist, brand manager, or C-level executive. Jeffrey Stewart, Serial Technology Entrepreneur, Founder Mimeo, Urgent Career and Monitor110, Reading Juliette Powell's book is like perusing the secret trade documents of the most connected social butterfly. Upon first meeting Juliette, she immediately grabbed me by the arm and introduced me to the most important person in the room. When you pick up her book, it's the same experience. She reaches through the pages and gives the reader entry to the halls of power through online networking. Amy Shuster, Editorial Producer, MSNBC, Juliette knows her way around a social network; she regales us with tales and practical advice from the plastic porous mediascape of today. David Thorpe, Global Director of Innovation, Ogilvy Professor, Stanford and Berkeley. The exciting new world of online social networking is demonstrating the profound power of these truths to change the very fabric of society as we know it. Our interactions, relationships, and values are changing faster than most of us can comprehend. For some, the pace of this change is alarming; for others, it is empowering. In *33 Million People in the Room*, Juliette Powell takes us on a fun-filled tour of this rapidly changing hyper-manic digital ecosystem, simultaneously providing both practical advice and an insightful commentary on the increasing importance of authenticity in modern culture. Along the way, we meet a hilarious cast of characters and gain a behind-the-scenes glimpse into real social networking success stories showing how to leverage the power of this modern phenomenon to achieve meaningful social and economic results for you and your business. Michael Spencer, CTO, ASmallWorld. Juliette Powell has captured the strength, excitement, and opportunity of social networks in this compelling work. Opening with an arresting saga about Chris Anderson's debut as the new TED owner, she deftly sketches vignette after vignette that will have you thinking, why not me? Social networking power is awesome for those who have experienced it, but most people remain skeptical, guarded, and untrusting. Give up control. All control. Well, as she explains, YES, I've tried it using six hundred fifty coauthors to write a book, a book no one could have written but to which everyone could contribute. It was hard, very hard at first to relinquish control, just as Powell describes. But the benefits she outlines are real. Try it; you'll see. Chuck House, Executive Director, Media X, Stanford University. Digital society is all about expanding and energizing connections between people and ideas in ways we are just starting to understand. *33 Million People in the Room* shares the perspective of an insider and shows us how business, entertainment, and politics all connect in the brave new world of social networking. Kenny Miller, Creative Director and EVP, MTV Network, Global Digital Media. If you thought social networks were just for kids or geeks or simply too frivolous for your time, then think again. Juliette Powell reveals the power of connections, the strategies to gain audience, and the best practices to build community in this brisk-paced canter through the new tools and techniques for doing business. It's jargon-free and an easy read for those who have never dipped a toe in the water, but even experienced networkers will find wisdom in its pages.
