Bernie Sanders Merchandise:

Art and Merchandise in Keith Haring's Pop Shop Amy Raffel,2020-12-30 As one of the first academic monographs on Keith Haring this book uses the Pop Shop a previously overlooked enterprise and artist merchandising as tools to reconsider the significance and legacy of Haring's career as a whole Haring developed an alternative approach to both the marketing and the social efficacy of art he controlled the sales and distribution of his merchandise while also promulgating his belief in accessibility and community activism He proved that mass produced objects can be used strategically to form a community and create social change Furthermore looking beyond the 1980s into the 1990s and 2000s Haring and his shop prefigured artists emerging self aware involvement with the mass media and the art world's growing dependence on marketing and commercialism The book will be of interest to scholars or students studying art history consumer culture cultural studies media studies or market studies as well as anyone with a curiosity about Haring and his work the 1980s art scene in New York the East Village street art art activism and art merchandising

Merchants of the Right Jennifer Carlson,2025-02-25 An eye opening portrait of the gun sellers who navigated the social turmoil leading up to the January 6 Capitol attack Gun sellers sell more than just guns They also sell politics Merchants of the Right sheds light on the unparalleled surge in gun purchasing during one of the most dire moments in American history revealing how conservative political culture was galvanized amid a once in a century pandemic racial unrest and a US presidential election that rocked the foundations of American democracy Drawing on a wealth of in depth interviews with gun sellers across the United States Jennifer Carlson takes readers to the front lines of the culture war over gun rights Even though the majority of gun owners are conservative new gun buyers are more likely to be liberal than existing gun owners This posed a dilemma to gun sellers

in the run up to the 2020 presidential election embrace these liberal customers as part of a new perhaps post partisan chapter in the American gun saga or double down on gun politics as conservative terrain Carlson describes how gun sellers mobilized mainstays of modern conservative culture armed individualism conspiracism and partisanship as they navigated the uncertainty and chaos unfolding around them asserting gun politics as conservative politics and reworking and even rejecting liberal democracy in the process Merchants of the Right offers crucial lessons about the dilemmas confronting us today arguing that we must reckon with the everyday politics that divide us if we ever hope to restore American democracy to health *Gender in the 2016 US Presidential Election* Dustin Harp,2019-04-09 Using a discourse analysis Dustin Harp investigates media during the 2016 US presidential election to explore how traditional patriarchal and feminist ideas about gender played out during the campaign The book illustrates how these two ideologies competed for space and struggled for discursive authority A broad range of media texts is examined and gender moments where gender became a dominant part of the political conversation are identified These include the nasty woman and grab them by the pussy comments of Donald Trump and the woman card played by and against Hillary Clinton Furthermore Harp reveals how binary notions of gender and stereotypical ideas of how men and women should behave look and sound structured the ways Donald Trump and Hillary Clinton were talked about in the media As a counterpoint the research also shows the ways feminist ideologies worked against the sexism and misogyny and became mainstream in media discourse during the campaign Students and researchers of Gender Studies will find that the gender moments in *Gender in the 2016 US Presidential Election* tell a broader story about women gender expectations and power They offer important and timely insights about misogyny and sexual harassment in contemporary US culture and feminist resistance in a mediated public sphere
