## **Bernie Sanders Minimum Wage:**

*Critical Perspectives on the Minimum Wage* Anne C. Cunningham, 2016-07-15 Perspectives on minimum wage have changed significantly over the past twenty years as seen in the increased momentum of movements around the country to increase workers salaries Critics of an increased minimum wage argue that it will lead to mass lay offs and increased unemployment Proponents argue the opposite that it will jump start our economy In this book economists the media the courts and even ordinary people will weigh in on this contentious issue allowing students to evaluate the minimum wage from all sides

**The Disinformation Age** Eric Cheyfitz, 2017-02-10 The Disinformation Age beginning in the present and going back to the American colonial period constructs an original historical explanation for the current political crisis and the reasons the two major political parties cannot address it effectively Commentators inside and outside academia have described this crisis with various terms income inequality the disappearance of the middle class the collapse of the two party system and the emergence of a corporate oligarchy While this book uses such terminology it uniquely provides a unifying explanation for the current state of the union by analyzing the seismic rupture of political rhetoric from political reality used within discussion of these issues In advancing this analysis the book provides a term for this rupture Disinformation which it defines not as planned propaganda but as the inevitable failure of the language of American Exceptionalism to correspond to actual history even as the two major political parties continue to deploy this language Further in its final chapter this book provides a way out of this political cul de sac what it terms the limits of capitalism s imagination by thinking from a different place that is located in the theory and practice of the Indigenous peoples of the Americas

See No Evil Joel Pollak,2016-07-25 Liberals take great pride in their supposed open mindedness Yet when it comes to hot button issues like radical Islam global warming and abortion open minded liberals go to great lengths to discredit and suppress the ideas of their opponents Breitbart senior editor Joel Pollak exposes the nineteen key ideas that today s liberals are desperate to suppress revealing the blatant hypocrisy of left wing leaders and pundits who preach tolerance but practice intolerance *A Measure of Fairness* Robert Pollin,2008 Assesses how well living wage and minimum wage regulations in the United States serve the workers they are intended to help Provides an overview of living wage and minimum wage implementation in Louisiana New Mexico Arizona California Massachusetts and Connecticut to show how these policies play out in the paychecks of workers in the halls of legislature and in business ledgers Concludes that living wage laws and minimum wage increases have been effective policy interventions capable of bringing significant if modest benefits to the people

*BNA Pension & Benefits Reporter* ,2000 **Bootstrapped** Alissa Quart,2023-03-14 An unsparing incisive yet ultimately hopeful look at how we can shed the American obsession with self reliance that has made us less healthy less secure and less fulfilled The promise that you can pull yourself up by your bootstraps is central to the story of the American Dream It s the belief that if you work hard and rely on your own resources you will eventually succeed However time and again we have seen how this foundational myth with its emphasis on individual determination brittle self sufficiency and personal accomplishment does not help us Instead as income inequality rises around us we are left with shame and self blame for our condition Acclaimed journalist Alissa Quart argues that at the heart of our suffering is a do it yourself ethos the misplaced belief in our own independence and the conviction that we must rely on ourselves alone Looking at a range of

delusions and half solutions from grit to the false Horatio Alger story to the rise of GoFundMe Quart reveals how we have been steered away from robust social programs that would address the root causes of our problems Meanwhile the responsibility for survival has been shifted onto the backs of ordinary people burdening generations with debt instead of providing the social safety net we so desperately need Insightful sharply argued and characterized by Quart s lively writing and deep reporting and for fans of Evicted and Nickel and Dimed Bootstrapped is a powerful examination of what ails us at a societal level and a plan for how we can free ourselves from these self defeating narratives *Labor Notes* ,2002 *Daily Labor Report* ,2000-12 *GMP Horizons* ,2000 **Employment and Training Reporter** ,1992 **The Complete Guide to Executive Compensation, Fourth Edition** Bruce R.
