Fallon, 2024-06-27 As the Internet Age endures and expands Peter K Fallon peers into the Pandora's Box of our age A twenty first century update to Jacques Ellul's masterful sociological study *Propaganda* *Propaganda 2.1* explores how the digital revolution has transformed the boundaries between individuals institutions and centres of power Coupling historical analysis with a wealth of current examples Fallon exposes the intricate and insidious ways propaganda alters our daily realities *Propaganda 2.1* is divided into three sections *propaganda 1 0 2 0* and *2 1* *Propaganda 1 0* compares the popular conception of propaganda with persuasive techniques such as rhetoric and coercion *2 0* reveals how the development of moveable type printing built the foundations of modern propaganda and finally *2 1* inhabits the post truth world in its totality Whilst the media landscape continually shifts *Propaganda 2.1*'s analysis is an opportunity to tackle this new reality *ICGR 2022 5th International Conference on Gender Research* Elisabeth Pereira, Carlos Costa, Zélia Breda, 2022-04-28

**SUPERMAN!** William Craig Lachowsky, 2023-03-16 In this daring and compelling work of personal memoir author William Craig Lachowsky details his life story from birth to now Expelled from middle school for penning an off color illustration not long after the Columbine massacre Lachowsky finds his life forever changed Faced with a political climate that increasingly frames the white man as Public Enemy Number One seeking purpose and meaning in his life he becomes first in his family to enlist in the Marine Corps and eventually get promoted to Sergeant Lachowsky faces many challenges that should be familiar to the disenfranchised working class men of his generation particularly disabled veterans such as himself including finding meaningful employment a place to call home and a good woman to share his life with A born and bred working class Midwesterner his story intersects urgently and meaningfully with those of the de industrialization of middle America the US's reckoning with Second Amendment rights and gun culture in the wake of mass shootings the attack on the Twin Towers and the American launch of the so called War on Terror and most of the other major political milestones of the last three decades Along the way Lachowsky folds in a searing critique of American imperialism the dominance of US media and government by liberal elites the same government's abandonment of American veterans and the working class and a number of challenging idiosyncratic takes on race gender and power relations that readers are unlikely to have encountered anywhere else Ultimately Lachowsky's is a story of persevering against the odds and it should bolster the spirit of anyone who feels the world is trying to keep them down *The North American Review* James Russell Lowell, Charles Eliot Norton, Henry Adams, Allen Thorndike Rice, Lloyd Stephens Bryce, George Brinton McClellan

Harvey, Joseph Hilton Smyth, Robert Dana, Robley Wilson, Vicente F. Gotera, Rachel Morgan, J. D. Bond, Richard Abernathy Watson, Kevin B. Smith, 2006 Grounded in basic political science research yet readily accessible to undergraduates PROMISE AND PERFORMANCE uses the title's theme as an organizing framework for studying American Politics The promise of democracy is analyzed using four core values Popular Sovereignty Political Freedom Political Equality and Majority Rule Minority Rights and is further explored in several new features including Living the Promise and Promise and Policy boxes The performance part of the theme is then integrated with an assessment at the end of every chapter along with a concluding policy chapter Solid scholarship and writing makes this an ideal text not just for reading and learning but also as an example of how political science is researched and written by the practitioners in academia *The Marketplace of Democracy* Michael McDonald, John Curtis Samples, 2006 Since 1998 U S House incumbents have won a staggering 98 percent of their reelection races Electoral competition has also declined in some state and primary elections The Marketplace for Democracy combines the resources of two eminent research organizations Brookings and the Cato Institute to address several important questions about our democratic system How pervasive is the lack of competition in arenas only previously speculated on such as state legislative contests and congressional primaries What have previous reform efforts such as direct primaries and term limits had on electoral competition What are the effects of redistricting and campaign finance regulation What role do third parties play In sum what does all this tell us about what might be done to increase electoral competition The authors including a number of today's most important scholars in American politics consider the historical development legal background and political aspects of a system that is supposed to be responsive and accountable yet for many is becoming stagnant self-perpetuating and tone deaf How did we get to this point and what if anything should be done about it Elections are the vehicles through which Americans choose who governs them and the power of the ballot is still the best lever ordinary citizens have in keeping public officials accountable The Marketplace of Democracy considers different policy options for increasing the competition

Sachs, 2017-02-07 The influential economist offers a persuasive strategy for a more just and sustainable economy with a forward by Bernie Sanders The New York Times has said that Jeffrey D Sachs is probably the most important economist in the world Now in a book that combines impassioned manifesto with a plan of action Sachs charts a path to move America toward sustainable development Sustainable development is a holistic approach to public policy that unifies economic social and environmental objectives By focusing too much on short term economic growth the United States has neglected rising inequality and dire environmental threats all while putting our long term economic growth at risk Sachs explores issues that have captivated national discourse including infrastructure trade deals energy policy the proper size and role of government the national debt and income inequality In accessible language he illuminates the forces at work in each case and presents specific policy solutions His argument rises above the stagnation of partisanship to envision a brighter way forward both individually and collectively Sachs demonstrates expertise on vastly different policy fields and makes a convincing case that abdicating the toxic intersection of militarism and exceptionalism is key to building a brighter future Global Policy Journal **Daily Labor Report** ,2009-12 **The Nation** ,1995 The Book on Congress Martin Gold,1992
