The processes of these knowledge areas are described by their inputs, tools and techniques, and outputs. The PMBOK also emphasizes the interaction and interdependence between different process groups. For example, the outputs from one process may be used by one or more other processes as inputs. Purpose. Government, commercial, and other organizations employ PMP certified project managers in an attempt to improve the success rate of projects in all areas of knowledge by applying a standardized and evolving set of project management principles as contained in PMI's PMBOK Guide.
