Achievements And Challenges Of Fiscal Decentralization Lessons From Mexico:

Achievements and Challenges of Fiscal Decentralization Marcelo Giugale, Steven Benjamin Webb, 2000-01-01 The three forces of democratization decentralization and development have swept the world over the last decade and redrawn the maps of politics power and prosperity Modern Mexico has been fully engaged in the trio making it a rich case study In recent years enhanced political competition has redistributed decisionmaking across all levels of government making the government more accountable to the average citizen It has also given subnational governments a renewed role as economic agents The taxation spending borrowing and institutions of Mexican states and municipalities are now increasingly under the rigor of market discipline The combined closer scrutiny of voters and financiers is creating a new incentive framework for policymakers a framework where necessary reforms become both inescapable and more importantly a perceived source of potential reward This book is the product of the analytical work of a large number of experts Mexican and foreign In the book the experts document Mexico s decentralization experience conceptualize its main trends policies and options and bring it into the light of international comparison They distill critical lessons and challenges that are of relevance for Mexico for Latin America and generally for countries that are embarking on far reaching decentralization efforts This renders the volume a major contribution to our knowledge and thinking in this area and a timely one since decentralization is an irreversible process that is likely to continue occupying policymakers for years to come **OECD Territorial Reviews: Mexico 2003**

OECD, 2003-02-07 This review of Mexico evaluates emerging territorial development strategies as well as relevant changes in governance such as new horizontal and vertical co ordination mechanisms being introduced in conjunction with improved federal arrangements **Metropolitan Economic Development** Alejandra Trejo Nieto, 2019-08-28 Metropolitan areas are

home to a significant proportion of the world s population and its economic output Taking Mexico as a case study and weaving in comparisons from Latin America and developed countries this book explores current trends and policy issues around urbanisation metropolisation economic development and city region governance Despite their fundamental economic relevance the analysis and monitoring of metropolitan economies in Mexico and other countries in the Global South under a comparative perspective are relatively scarce This volume contains empirical analysis based on comparative perspectives with relation to international experiences It will be of interest to advanced students researchers and policymakers in urban policy urban economics regional studies economic geography and Latin American studies **Federalism and Economic**

Reform Jessica Wallack, T. N. Srinivasan, 2006-01-09 This collection focuses on the ways in which federalism has affected and been affected by economic reform especially global integration The editors and contributors focus in particular on the political economy of institutional and economic change how the division of authority between national and subnational governments shapes debates over policy changes as well as how the changing economic environment creates incentives to modify the basic agreements between levels of governments Each chapter contains a historical overview and an in depth

account of division of authority lines of accountability and legislative bureaucratic and other arenas in which the levels of government interact for a particular country The analyses are based on reform or non reform episodes for each country most from recent history but some spanning the century As a collection the country studies span a range of developing and industrial countries with varying political systems *Subnational Capital Markets in Developing Countries* Mila Freire, John E. Petersen, 2004 This publication has been prepared by staff members of the World Bank and selected guest contributors It sets out a framework to study subnational governments as borrowers and the range of credit markets in which they may operate It also contains a number of case studies which detail the recent experience of 18 countries in developing markets for subnational borrowers and offer insights into lessons to be drawn on fostering responsible credit market access within a framework of fiscal and financial discipline Other issues discussed include the issuing of municipal debt and its characteristics and the role of macroeconomic conditions and market development in the success or failure of those borrowings **Fiscal Decentralisation and Gender Responsive Budgeting in Mexico** Lekha S. Chakraborty, 2006

Federalism and the Market Erik Wibbels, 2005-05-02 This book first published in 2005 develops a comparative model of intergovernmental bargaining to account for variation in the capacity of federations in the developing world to undertake economic policy reform suggesting that many market reform policies are a function of a constant process of bargaining between national and regional leaders struggling for political survival As the degree of national regional disagreement mounts collective action on reforms that require implementation at multiple levels of government becomes more difficult The degree to which the two factors conflict depends on four factors the individual electoral interests a shared intergovernmental fiscal system the manner in which regional interests are represented in national policy making and the levers of partisan influence national leaders have over subnational politicians In testing the argument with a combination of cross sectional time series and case study analysis this book contributes to the broad literatures on development and the comparative political economy of federalism and decentralization *Fiscal Federalism in Latin America* Eduardo Wiesner Durán, 2003 This text helps Latin American policymakers meet the challenge of decentralization to improve public sector performance at all levels of government by appropriately assigning jurisdiction over public goods services tax authority and user charges

Effect of Decentralization Strategy on Macroeconomic Stability in Thailand Kanokpan Lao-Araya, 2002 Examines how the Thai central gov t TCG can finance decentralization and make local gov ts LG accountable for their own finances The TCG medium term fiscal stance is not conducive to planned fiscal decentralization and LG will not assume responsibility for providing public services previously provided by the TCG This study proposes that the TCG must increase the value added tax rate over Thailand has adopted an unbalanced approach to fiscal decent n LG are guaranteed rev from transfers from the CG but need not assume increased respon y for providing public serv This encourages LG to spend irresponsibly in expectation of bailouts by the TCG This study recommends that the TCG impose budget constraints on LG Dilemmas of Political

Change in Mexico Kevin J. Middlebrook, 2004 The victory by Vicente Fox Quesada in Mexico's July 2000 presidential election was a watershed in the country's political history His triumph convincingly marked the consolidation of electoral democracy and by ending seven decades of uninterrupted national rule by the official Institutional Revolutionary Party PRI symbolized a clear break with the political regime established following the 1910-1920 revolution Nevertheless many legacies of postrevolutionary authoritarianism persist and Mexico's democratization process remains incomplete The seventeen contributors to this volume assess Mexico's political dynamics at the turn of the century and the many pending challenges in the construction of a more fully democratic political order They examine 1 changes affecting the party system electoral institutions and voting behavior 2 the evolving role of the armed forces organized labor big business and rural producers 3 the new importance of civil society the mass media and cross border social coalitions 4 and key issues of political representation and governance including executive legislative relations judicial performance federalism the constitutional rights of indigenous peoples and the political role of Mexicans resident in the United States **Decentralization and Local Autonomy in Mexico** Emily Edmonds-Poli, 2001 *Proceedings of the ... Inter-Regional Debt Management Conference*, 2001 *A New Perspective on Intergovernmental Fiscal Relations* Machfud Sidik, 2007 **Mexico, Selected Issues**, 2004 *The Sources of Democratic Responsiveness in Mexico* Matthew R. Cleary, 2010 What good are elections in Mexico Elections and democratic responsiveness Political participation and democratic responsiveness Testing hypotheses about responsiveness the public services approach Testing hypotheses about responsiveness the public finance approach Electoral and participatory mechanisms in action Conclusion The sources of democratic responsiveness in Mexico Appendix Fractionalization indices as measures of electoral competitiveness **Taxation and Latin American Integration** Vito Tanzi, Alberto Barreix, Luiz Arruda Villela, 2008 In South and Central America a movement toward further economic integration has begun In the hope of expediting the process and to foster a better understanding of the policy actions required the Inter American Development Bank studied the impact of trade integration on taxes This book collects twelve of these studies **OECD Territorial Reviews** Organisation for Economic Co-operation and Development. Territorial Development Policy Committee, 2003 Despite its impressive export growth performance and sizeable inflows of foreign direct investment during the 1990s Mexico has been unable to alleviate the social and regional disparities that exist within the country This book evaluates emerging development strategies and governance mechanisms being introduced in conjunction with improved federal arrangements It focuses on three key policy objectives designed to redress Mexico's stark regional disparities alleviating poverty fostering competitiveness and enhancing connectivity **Proceedings of the ... Annual Conference on Taxation Held Under the Auspices of the National Tax Association-Tax Institute of America** National Tax Association-Tax Institute of America, 2004 **Bargaining for a New Fiscal Pact in Mexico** Stephen B. Webb, Christian Y. Gonzales, 2004 **The Evolution of Competition** Dwight Daniel Dyer Leal, 2005
