Brian Denison, 2017-07-31 In this valuable resource well known scholars present a detailed understanding of contemporary theories and practices in the fields of measurement assessment and evaluation with guidance on how to apply these ideas for the benefit of students and institutions Bringing together terminology analytical perspectives and methodological advances this second edition facilitates informed decision making while connecting the latest thinking in these methodological areas with actual practice in higher education This research handbook provides higher education administrators student affairs personnel institutional researchers and faculty with an integrated volume of theory method and application **Law, Technology and Dispute Resolution** Riikka Koulu, 2018-09-24 The use of new information and communication technologies both inside the courts and in private online dispute resolution services is quickly changing everyday conflict management However the implications of the increasingly disruptive role of technology in dispute resolution remain largely undiscussed In this book assistant professor of law and digitalisation Riikka Koulu examines the multifaceted phenomenon of dispute resolution technology focusing specifically on private enforcement which modern technology enables on an unforeseen scale The increase in private enforcement confounds legal structures and challenges the nation state s monopoly on violence And in this respect the author argues that the technology driven privatisation of enforcement from direct enforcement of e commerce platforms to self executing smart contracts in the blockchain brings the ethics of law s coercive nature out into the open This development constitutes a new and dangerous grey area of conflict management which calls for transparency and public debate on the ethical implications

of dispute resolution technology **Privacy and Security in the Digital Age** Michael Friedewald, Ronald Pohoryles, 2016-01-13 Privacy and data protection are recognized as fundamental human rights Recent developments however indicate that security issues are used to undermine these fundamental rights As new technologies effectively facilitate collection storage processing and combination of personal data government agencies take advantage for their own purposes Increasingly and for other reasons the business sector threatens the privacy of citizens as well The contributions to this book explore the different aspects of the relationship between technology and privacy The emergence of new technologies threaten increasingly privacy and or data protection however little is known about the potential of these technologies that call for innovative and prospective analysis or even new conceptual frameworks Technology and privacy are two intertwined notions that must be jointly analyzed and faced Technology is a social practice that embodies the capacity of societies to transform themselves by creating the possibility to generate and manipulate not only physical objects but also symbols cultural forms and social relations In turn privacy describes a vital and complex aspect of these social relations Thus technology influences people s understanding of privacy and people s understanding of privacy is a key factor in defining the direction of technological development This book was originally published as a special issue of Innovation The European Journal of Social Science Research Haryana SSC Recruitment Exam 2019 Arihant Experts, 2020-01-11
