and context on the way language is used and society's effect on language. It differs from sociology of language which focuses on the effect of language on society. Sociolinguistics overlaps considerably with pragmatics. It is historically closely related to linguistic anthropology and the distinction between the two fields has been questioned. This book deals with the social life of language. The field ranges from micro analyses to broadly based policy and planning undertakings. As such, this book draws from sociolinguistics, the sociology of language and psycholinguistics. The relationship between language and identity, whether of an individual or a group, is a strong thread linking all the topics covered in the book. For researchers and advanced students, it gives access to the field's most pressing issues and debates, as well as providing a platform for new initiatives in sociolinguistic research. Key Issues in Language Teaching Jack C. Richards, 2015-09-17 TESOL ESL Teaching

English Tertiary Education in Vietnam James Albright, 2018-06-27 As part of a long series of Vietnam's policy objectives, English education has been identified as key to improving the quality of its rapidly expanding tertiary institutions and is crucial to the larger aim of modernising and internationalising its economy. Bringing together a wide range of Vietnamese and foreign English education scholars and tertiary educational practitioners, this book documents the significant progress and challenges in the realisation of Vietnam's English language policies as they are enacted in the higher education sector. Changes to Vietnam's higher education system remain unstable, unsystematic and insubstantial. This book provides insights into how recent Vietnamese government policy is providing for a substantial and comprehensive renewal of Vietnam's tertiary education as part of their 2020 plan. Academics and students of English education, language policy and nation building within the context of increased globalisation and marketisation in developing nations and Vietnam in particular should find this book valuable. **Nine Principles for Inspired Action** Ronald Finklestein, Ronald P. Finklestein, Robert Schepens, 2008 Based on extensive research on successful small businesses, this work details nine principles that help create a new definition of success. 〇〇〇〇〇〇〇〇〇〇〇〇, 2011 *Rethinking EMI* Lily I-Wen Su, Hintat Cheung, Jessica R. W. Wu, 2021-06-10 Due to the competitive edge it confers on students, educational institutions and non-English speaking nations in a globalized economy, English as a medium of instruction (EMI) has been gaining popularity in tertiary education in non-native English speaking (NNEST) countries. Institute-wide EMI implementation has often been imposed by top-down decisions in combination with the optimistic view that the horse should always be placed before the cart. However, emerging evidence suggests that the delivery of such programs to NNEST students has led to new pedagogical challenges and learning problems that go beyond the scope of language learning and teaching and deserve immediate attention. For example, how would an instructor respond to situations in which students' learning of content is compromised by their limited language proficiency? This book draws on the current practice of EMI in diverse disciplines and university settings and examines how these new pedagogical and learning issues can be addressed. The discussion also involves a reflection on the essence of EMI in relation to the use of the first language (L1) as the medium of instruction in tertiary education. In addition, the book includes discussion about how to

ensure and maintain the quality of EMI programs and assess the readiness of stakeholders for such programs which include administrators teachers and students The discussion is led by exemplars in Hong Kong and Taiwan where the majority of students are native Chinese speakers in the hope of developing critical perspectives and practical guidelines as references for EMI in other NNES settings The Open Access version of this book available at <http://www.taylorfrancis.com/books/e> ISBN has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license
