**Act Math Section Guide** David Kronmiller, 2012-12-01 Dr David Kronmiller has been preparing high school students for the ACT and SAT for more than fifteen years. He has developed a unique method called the PhD Tutor Method. This method allows the student to be confident that they will complete each section on time with ample time for review. This builds self confidence and significantly reduces the student's stress. The second part of the method builds the necessary skill set for obtaining their best possible score. Dr Kronmiller holds a PhD in Physics from the University of Texas at Dallas where he was a Robert Welch Fellow in Chemistry. He is a member of the American Physical Society, The American Chemical Society, and is a fellow of Sigma Pi Sigma, the International Honor Society of Physics Students. He has authored numerous papers and is the inventor of several patents. At an early age while working at Proctor & Gamble's Ivorydale Technical Center he developed optical brighteners for Tide, the unique fabric softener Downy, and low temperature compatible plasticizers for low temperature gaskets. Recently Dr Kronmiller developed a patented asymmetrical membrane for the water purification system on NASA long term space flights.
