The dictionary presents rich information about word frequencies and distributions in an accessible manner. In addition to textual and numerical information, the dictionary offers a range of visualisations to help understand the statistical properties of words. These visualisations are especially important for pedagogical uses of the book. This book also includes vocabulary exercises for learners of English to activate their vocabulary with the help of the dictionary. The dictionary is based on extensive research on current British English using the British National Corpus 2014, a 100 million word corpus of contemporary British English developed at Lancaster University. The corpus represents a wide range of genres, registers of spoken and written English, including informal speech, fiction, newspapers, academic writing, and e-language. Additional support materials for this book are available at <https://lancslex.lancs.ac.uk>. This dictionary is designed to meet the needs of a wide variety of users interested in current British English vocabulary, including students, educators, journalists, material developers, and researchers.

Action Research in the World Language Classroom Mary Lynn Redmond, 2013-06-12.
