**A Modest Proposal in the Context of Swift's Irish Tracts** Maria-Angeles Ruiz Moneva, 2020-06-12 Swift's A Modest Proposal has always aroused the interest not just of literary critics but also of linguists and pragmatists. Within the latter approaches the study of irony and more concretely the intentions and attitudes that must have guided the production of such an intricate work have always been paramount. However, it seems that within pragmatics the analysis has been restricted so far to the 1729 work itself. In the present author's view it is interesting to contextualise this masterpiece of irony and satire within Swift's wider writing on Ireland, an approach that remains to be carried out. Accordingly, this work sets out to analyse a selection of Swift's Irish Tracts with a view to tracing the evolution within Swift's literary production of his views and attitudes towards the situation of his homeland. Although different pragmatic approaches are applied, the emphasis is laid upon the contributions that the relevance theoretical framework and its studies on irony may bring to the understanding of this particular Tract. The works selected are meant to cover and also be representative of the main phases currently distinguished within Swift's writing on the Irish Question. It is therefore hoped that a deeper analysis of the former works by Swift on this topic will provide new insights for a better understanding of A Modest Proposal.

**Kierkegaard on Faith and the Self** C. Stephen Evans, 2006 Evans makes a strong case that Kierkegaard has something crucial to say to the Christian church as a philosopher and something equally crucial to say to the philosophical world as a Christian believer. Robert L. Perkins, Stetson University and Editor, International Kierkegaard Commentary, Perspectives in Religious Studies.

Composition/rhetoric W. Ross Winterowd, 1986 In this eclectic selection of 27 essays Winterowd presents a comprehensive and up to date discussion of the theory and practice of composition. Winterowd relates composition to the fields of literacy and rhetoric, moving easily between topics as diverse as brain theory and stylistics. The essays blend the speculative with the specific, the abstract with the actual, as Winterowd seeks a balance between theory and application. The book is divided into two sections. Part I: The Field of Composition. Rhetoric constitutes a state of the art essay on composition. Part 2: Essays on Composition. Rhetoric develops the themes introduced in the first part.

**The Crisis of Courtesy** Jacques Carré, 1994-03-01 The Crisis of Courtesy examines the apparent decline of the courtesy book in Britain after the 16th century and suggests that the matter of courtesy was disseminated into a broad range of literary genres such as poetry, the essay and the novel. The authors highlight the pervasive interest in conduct evinced in Georgian and Victorian literature. They show how it became an important source of inspiration for middle class writers and artists who were eager to help their readers adapt to a changing society but preferred to write in a humorous satirical or imaginative vein rather than in a prescriptive manner. The book will be useful to the literary historian as some major Augustan works such as those of Swift, Fielding and Hogarth are analysed from a new perspective.
