This book constructively critiques current forensic practice and psychological assessment approaches through a variety of diverse voices from pioneering researchers around the world who offer their expertise on these challenges and assist the reader to consider their potential contribution to pushing forward the frontiers of Forensic Psychology. The authors also locate the origin of these biases in order to further dismantle them and improve the outcomes for the forensic client base especially specific diverse populations. They emphasise the need to be creative and evolve not just in line with the real world changes of today but also to prevent the issues of tomorrow before they become the next news headline. Marc Gobé, Joël Desgrippes, 2007 *Genealogical Computing*, 2003 **Media Today** Joseph Turow, 2011-09-22 **Media Today** puts students at the center of the profound changes in the twenty first century media world from digital convergence to media ownership and gives them the skills to think critically about what these changes mean for the role of media in their lives. **Media Today Fourth Edition** is built around four key concepts. A media systems approach allows students to understand the interconnected cultural, political and economic forces that shape media they encounter every day. Unique insights into media trends give students an insider's perspective on how media industries are responding to changes from globalization to social networking. Focus on digital convergence shows in each chapter how digital media is transforming traditional mass media such as newspapers, magazines and television. A media literacy goal encourages and builds critical skills to make students more informed and engaged citizens in our media driven society. Completely revised with updated examples, new case studies and new online video resources, the 4th edition of **Media Today** connects the latest trends, debates and technologies to the history of media, highlighting the impact and meaning of today's changes to the media landscape, especially how traditional industries have blurred together with digital convergence.
