Do the math for 1.11

Urban to forest: Section (ha) = 1000 meters by 1000 meters. 1000 meters = 1 ha. 1 square meter = 0.001 hectare

Example: If a section goes up to 100 ha, what size is it in acres?
100 ha x 2.5 acres = 250 acres

With your teacher: The Library floor is 10,000 square feet. Determine the size in Section 1.

Scientists have great passion What could be more exhilarating than to go to work every day feeling as if you were once again a nine year old called up to the stage to help the magician with his trick To be a researcher is to always be in the position of having the chance to see how the trick works No wonder that many researchers feel that each new day is the most exciting day to be a scientist It therefore is not surprising that scientists have such trouble communicating with non scientists It is difficult for the scientist to understand a life not focused on the desire to understand But the differences are not that

Everyone wants to understand that is one of the factors that make us human The difference is more that scientists limit their definition of comprehension to specific rules of logic and evidence These rules apply and are used in everyday life but often with less rigor or restrictions on evidence
