Despite the fact that Christianity is understood to be thoroughly intertwined with matter, objects and things, Christians struggle to cope with this materiality in their daily lives. This volume argues that the ambivalent relationships many Christians have with materiality is a driving force that contributes to the way people in different Christian traditions and in different parts of the world understand and live out their religion. By placing the questions of limits and boundary work to the fore, the volume addresses the question of exactly how Christianity takes place materially, addressing a gap in studies to date. *Christianity and the Limits of Materiality* presents ground-breaking research on the frameworks and contexts in relation to and within which Christian logics of materiality operate. The volume places the negotiations at the limits of materiality within the larger framework of Christian identities and politics of belonging. The chapters discuss case studies from North and South America, Europe and Africa and demonstrate that the limits preoccupying Christians delimit their lives but also enable many things. Ultimately *Christianity and the Limits of Materiality* demonstrates that it is at the interfaces of materiality and the transcendent that Christians create and legitimise their religion. **Delphi Collected Works of John of Damascus**

(Illustrated) John of Damascus, 2025-10-16 Saint John of Damascus was an eighth-century monk and theological doctor of the Greek and Latin churches. His treatises on the veneration of sacred images placed him in the forefront of the Iconoclastic Controversy and his theological synthesis made him a preeminent intermediary between Greek and Medieval Latin culture. Also ascribed to John is *Barlaam and Ioasaph*, one of the best-known examples of the hagiographic novel. It tells the tale of an Indian prince that becomes aware of the world's miseries and is converted to Christianity by the monk Barlaam. Delphi's Medieval Library provides eReaders with rare and precious works of the Middle Ages with noted English translations and the original texts. talent of eloquence He brought it forth and witnessed to the teaching of the Church in language which present exciting scenes in Anglican churches brings home in the most forcible way Our English image breakers are in the camp of Leo the Isaurian who in the eighth century waged war against holy images on the plausible pretext that they withdrew honour from God The seventh General Council condemned his assault and it determined the different kinds of worship using the Greek terms of latreia and douleia The special champion of holy Images is St John Damascene whose treatise is now published for the first time in English Every article in the creed has its special defender St John Damascene proclaims the Communion of Saints and the honour of God through His chosen and favoured servants No part of Catholic belief is a vain word nor can the true children of the Church say with their lips what they do not hold in their hearts I believe in the Communion of Saints follows upon I believe in God so that the enemies of the Saints are the enemies of God This is the doctrine which St John Damascene traces back to the eternal ages before time was in the divine of the Father in the Person of the Son God the Son is the Image by essence and then He becomes a visible image or form in time clothed in flesh and blood showing us by His own example that our worship of God is through corporeal things Again and again the Saint repeats that as we must not make an image of the Invisible God so neither must we refuse to look upon the Son His Image first in eternity and then Incarnate
