Cleaning Services Bid Estimation provides job aids which allow small commercial cleaning services contractors to quantitate  
a bid for janitorial jobs with the same precision and detail as larger commercial cleaning services competitors It is a unique  
innovation in its category and is inexpensive relative to other janitorial bidding resources currently available to commercial

What would tempt you to whistleblow Do Codes of Conduct make organisations ethical How do people react to taking the  
blame for others This book answers such questions drawing on the views of employees in eight large organisations One  
finding is the whited sepulchre phenomenon an organisation which presents a squeaky clean image to the world but has  
intrinsic failings which cause moral dilemmas for staff While treatment of customers is regulated by Codes and Charters  
internal organisation is typically more anarchic The study also exposes the moral conflicts generated by party political  
machinations in organisations with democratic governance The book offers a unique perspective on ethical attitudes at work  
and reactions to responsibility and accountability It finds that although religious belief is declining strong moral beliefs still  
thrive and ethical employees abound It highlights the importance of empowerment procedures and professionalism in  
creating the moral organisation This original study will interest practitioners in business the public sector and NGOs
