A Modest Proposal Colorful Classics:

A Modest Proposal Jonathan Swift, 2015-11-03 Jonathan Swift's classic essay *A Modest Proposal* is one of the most iconic essays ever written and is a perfect example of hyperbole and satire. This Colorful Classics edition presents this classic in full with a beautifully designed colorful cover that is a perfect edition to any bookshelf. *Art as Performance, Story as Criticism* Craig S. Womack, 2014-10-20 Pick up a work of typical literary criticism and you know what to expect: prose that is dry, pedantic, well meaning but tedious, slow going and essentially humorless. But why should that be so? Why can't more literary criticism have a political edge and be engaging and fast paced? Why can't it include drama, personal narrative and even humor? Why can't criticism become an artistic performance rather than just a discussion of art? *Art as Performance, Story as Criticism* is Craig Womack's answer to these questions. Inventive and often outrageous, the book turns traditional literary criticism on its head, rejecting distanced, purely theoretical argumentation for intimate engagement with literary works. Focusing on Native American literature, Womack mixes forms and styles. He is unafraid to combine meticulous research and carefully considered historical perspectives with personal reactions and reflections. The book opens with a short story, *The Song of Roe N'ld*, in which a Native filmmaker loses control of his movie project in part because of his homoerotic attraction to its star. The following chapters or musings include original dramas while others more closely resemble traditional literary criticism, such as essays discussing the lesser known plays of Lynn Riggs and the stories of Durango Mendoza. Still other chapters defy easy categorization, such as the piece *Caught in the Current*, *Clinging to a Twig*, in which Womack interweaves historical analysis of the state of the Creek Nation in 1908 with a vivid recreation of the last day on earth of Creek poet Alexander Posey. Throughout the book, the author offers his take on such controversial issues as the Cherokee freedmen issue and the ban on gay marriage. In being different, Womack seeks to breathe new life into literary analysis and introduce criticism to a wider audience. Radical, groundbreaking and refreshing, *Art as Performance, Story as Criticism* reinvents literary criticism for the twenty-first century.

The German Classics of the Nineteenth and Twentieth Centuries Kuno Francke, William Guild Howard, 1914 **Funny Thing About Murder** David Gherin, 2017-10-11 Focusing on crime fiction and films that artfully combine comedy and misdeed, this book explores the reasons writers and filmmakers inject humor into their work and identifies the various comic techniques they use. The author covers both American and European books from the 1930s to the present by such authors as Rex Stout, Raymond Chandler, Robert B. Parker, Elmore Leonard, Donald E. Westlake, Sue Grafton, Carl Hiaasen and Janet Evanovich, along with films from *The Thin Man* to the BBC's *Sherlock* series.

Motion Picture Classic, 1924 *The German classics* Kuno Francke, 1914 **The German Classics: Keller, Meyer, Widmann, Spitteler** Kuno Francke, Isidore Singer, 1914 *Professional Photoshop* Dan Margulies, 2006-11-20 The commonsense by the numbers approach of *Professional Photoshop* has shaped the workflows of a generation of Photoshop experts. This new edition, the first in nearly five years, is completely updated for the age of digital photography. It continues the book's tradition

of introducing astoundingly effective previously unknown methods of image enhancement. The original photographs found in the book come from a variety of professional sources and all correction exercises are on the included CD. Professional Photoshop has changed radically from edition to edition and this time is no exception with almost 90 percent new content and completely overhauled coverage of curves, channel blending and sharpening. Professional Photoshop offers a full explanation of how curves bring out detail in the most important areas of the image. A comprehensive strategy for blending channels to create deeper, stronger images. The strengths and weaknesses of CMYK, LAB and RGB and when to use each one. The first detailed look at the Shadow/Highlight command and even more sophisticated ways to enhance contrast in the lightest and darkest parts of the image. Sharpening strategies in three full chapters including the innovative hiraloam method, High Radius Low Amount. Plus a fiendishly effective method of merging hiraloam and conventional unsharp masking. The realities and the politics of preparing files for commercial offset printing and how to deal with colors that are out of the press's gamut. What Camera Raw and similar acquisition modules can offer. Typical problems of digital captures that were not found in the age of film and how to correct for them.

Language Arts in Asia 2 Christina DeCoursey, 2014-06-19

This volume is the second of a series deepening the research understanding and academic study of Language Arts as an English language teaching paradigm. Previously used extensively in native speaking countries, Language Arts has been taken up in the past decade in many parts of Asia. Language Arts uses intrinsically motivating materials such as literature, drama and popular culture to help students develop mastery of written and spoken language and text types. In recent years, Language Arts has embraced media and multiliteracies as well as critical and creative thinking, intercultural sensitivity, civics and ethics. This volume offers a breadth of topics which embody methodologically sophisticated and contemporary language arts research. These include multimodal analysis, virtual environments, the use of comics, anime and film in second language teaching and learners' experiences of drama and literary tourism. The use of literature and the arts in humanist education has a long history within Europe. It was traditionally appreciated for its ability to instil ethics and finer sensibilities and teach leadership. But the traditional program was marred by its function in inculcating and preserving elitist high culture voices, texts and values. The post-colonial incarnation of Language Arts has been informed by critical and linguistic theory, helping it to embrace a popular scope and include a wide array of authentic social and media texts. The movement of English language teaching beyond native speaker shores has given rise to a vibrant variety of World Englishes whose literary and media works are now represented within Language Arts. The explosion of media over the past few decades has given rise to an increasing array of media to use in language teaching. These trends invite scholarly analysis and this is clearly reflected in the chapters in this volume. Linguistics has long had a connection to and a natural role to play in analysing the creative verbal and visual arts. As a paradigm, Language Arts now takes an inclusive view of the continuum of spoken, written and performed languages and texts. Cutting edge Language Arts research is now also supported through the new journal *Language Arts and Linguistics*.
