*Research on the Road* Dan Podjed, Simona Bezjak, Gregor Burger, Jernej Tiran, Simon Koblar, Tatiana Bajuk Senčar, Marko Polič, Mikhail Sysoev, Jože Guna, Luka Mladenovič, Saša Babič, Matevž Pogačnik, Alenka Bezjak Mlakar, Emilija Stojmenova Duh, 2017. How do people drive on roads and behave in traffic? How can we change driving habits and encourage more environmentally responsible modes of transportation? These are the two main questions to which the volume tries to answer. It tackles the problems of driving, traffic, transportation and mobility fully rather than from a single perspective which has tended to be the norm so far. The authors describe how we can weave together qualitative and quantitative approaches; how useful interviews are for understanding driving comfort; the power ethnography has to help us understand the lifestyle of drivers which technological tools and approaches are the most useful for analyzing styles of driving; how to explore vehicles and traffic by analyzing language; how traffic might improve or worsen our way of life from a psychological point of view and how we can encourage environmentally friendly behavior and practices on both the road and in life in general.

*Handbook of Anthropology in Business* Rita M. Denny, Patricia L. Sunderland, 2016-06-16. In recent years announcements of the birth of business anthropology have ricocheted around the globe. The first major reference work on this field, the *Handbook of Anthropology in Business* is a creative production of more than 60 international scholar-practitioners working in universities and corporate settings from high tech to health care. Offering broad coverage of theory and practice around the world, chapters demonstrate the vibrant tensions and innovation that emerge in intersections between anthropology and business and between corporate worlds and the lives of individual scholar-practitioners. Breaking from standard attempts to define scholarly fields as products of fixed consensus, the authors reveal an evolving mosaic of engagement and innovation offering a paradigm for understanding.
