## **Andrew Marvell's Liminal Lyrics The Space Between:**

Andrew Marvell's Liminal Lyrics Joan Faust, 2012-10-12 Andrew Marvell's Liminal Lyrics The Space Between is an interdisciplinary study of the major lyric poems of seventeenth century British metaphysical poet Andrew Marvell. The poet and his work have generally proven enigmatic to scholars because both refuse to fit into normal categories and expectations. This study invites Marvell readers to view the poet and some of his representative lyrics in the context of the anthropological concept of liminality as developed by Victor Turner and enriched by Arnold Van Gennep, Jacques Lacan and other observers of the in-between aspects of experience. The approach differs from previous attempts to explain Marvell in that it allows multidisciplinary and multi-media contexts in a broad matrix of the areas of experience and representation that defy boundaries that blur the line at which entrance becomes exit. This study acknowledges that the poems discussed and by implication the entire corpus of Marvell's work and the life that produced it derive from a refusal to draw a definite divide. In analyzing a small selection of Marvell's life and lyrics as explorations of various realms of liminality in word and image, readers can see a passageway to the poet's works that never really reaches a destination; instead, the unlimited possibilities of the journey remain. Thus, the in-between aspects of the poet and his poetry actually define his technique as well as his brilliance.

**Lyric Apocalypse** Ryan Netzley, 2015-01-22 What's new about the apocalypse? Revelation does not allow us to look back after the end and enumerate pivotal turning points. It happens in an immediate encounter with the transformatively new. John Milton's and Andrew Marvell's lyrics attempt to render the experience of such an apocalyptic change in the present. In this respect, they take seriously the Reformation's insistence that eschatology is a historical phenomenon. Yet these poets are also reacting to the Regicide, and as a result, their works explore very modern questions about the nature of events: what it means for a significant historical occasion to happen. *Lyric Apocalypse* argues that Milton's and Marvell's lyrics challenge any retrospective understanding of events, including one built on a theory of revolution. Instead, these poems show that there is no after to the apocalypse; that if we are going to talk about change, we should do so in the present when there is still time to do something about it. For both of these poets, lyric becomes a way to imagine an apocalyptic event that would be both hopeful and new.

*Texts and readers in the Age of Marvell* Christopher D'Addario, Matthew C. Augustine, 2018-08-07 *Texts and Readers in the Age of Marvell* offers fresh perspectives from leading and emerging scholars on seventeenth-century British literature with a focus on the surprising ways that texts interacted with writers and readers at specific cultural moments.

**Ekphrastic encounters** David Kennedy, Richard Meek, 2018-12-05 This book offers a comprehensive reassessment of ekphrasis, the verbal representation of visual art. Ekphrasis has been traditionally regarded as a form of paragone, competition between word and image. This interdisciplinary collection of essays seeks to complicate this critical paradigm and proposes a more reciprocal model of ekphrasis that involves an encounter or exchange between visual and textual cultures. This critical and theoretical shift demands a new form of ekphrastic poetics which is less concerned with representational and

institutional struggles and more concerned with ideas of ethics affect and intersubjectivity Ekphrastic encounters brings together leading scholars working in the field of word and image studies and offers a fresh exploration of ekphrastic texts from the Renaissance to the present day Taken together the chapters establish a new set of theoretical frameworks for exploring the ekphrastic encounter

*Imagining the Soul in Premodern Literature* Abe Davies, 2021-06-28 This book is a study of ghostly matters of the soul in literature spanning the tenth century and the age of Shakespeare All people according to John Donne constantly believe that they have an immortal soul But he also reflects that in fact there is nothing so well established as constrains us to believe both that the soul is immortal and that every particular man hath such a soul In understanding the question of man's disembodied part as at once fundamental and fundamentally uncertain he was entirely of his time and *Imagining the Soul in Premodern Literature* considers this fraught shifting yet uniquely compelling entity in the context of the literary forms and effects involved in its representation Gruesome medieval dialogues between damned souls and worm eaten bodies verse and prose works by Donne Ren Descartes Margaret Cavendish and Andrew Marvell a profusion of sonnet sequences sermons manuals of instruction and travelogues Hamlet and its natural philosophical thinking about the apparently disembodied soul haunting Elsinore these chapters range across all this and more offering a rigorous yet accessible account of an essential aspect of premodern literature that will be of interest to scholars students and the general reader alike

**Spenser's Afterlife from Shakespeare to Milton** Jennifer C. Vaught, 2025-10-01 This study explores how Shakespeare Ben Jonson Andrew Marvell and Milton among many others appropriated Spenser's long and shorter poems for creating comedy parody and satire Their appropriations which were widely influential on communities of readers writers and intertextual networks from 1590 1660 left an abiding impression of Spenser as a biting satirist Spenser's Afterlife from Shakespeare to Milton The Faerie Queene as Intertextual Environment is the first study to combine the reception history of The Faerie Queene with ecocriticism animal studies and posthumanist tenets of vital materialism and the power of things This poem functions as a powerful nonhuman agent that transforms how readers respond to their environments The Faerie Queene and its afterlives move readers to perceive flaws in political social and religious figureheads and institutions to envision better ones

**Aesthetics of contingency** Matthew C. Augustine, 2018-06-01 A study of how literature responds to conditions of political uncertainty this book rewrites much of what we thought we knew about civil war and Restoration literature Rather than sparking a decisive break with the past for many the seventeenth century's civil wars opened onto a resolutely indeterminate future

**Play Among Books** Miro Roman, Alice\_ch3n81, 2021-12-06 How does coding change the way we think about architecture This question opens up an important research perspective In this book Miro Roman and his AI Alice\_ch3n81 develop a playful scenario in which they propose coding as the new literacy of information They convey knowledge in the form of a project model that links the fields of architecture and information through two interwoven narrative strands in an infinite flow of real books Focusing on the intersection of information
