## **Adventure Devils Foot Annotated:**

**The Adventure of the Devil's Foot** Sir Arthur Conan Doyle, 2021-01-12 The Adventure of the Devil's Foot is one of the 56 Sherlock Holmes short stories written by Arthur Conan Doyle. It is one of eight stories in the cycle collected as His Last Bow.

**The Adventure of the Devil's Foot (Annotated)** Sir Arthur Conan Doyle, 2021-04-21 In recording from time to time some of the curious experiences and interesting recollections which I associate with my long and intimate friendship with Mr Sherlock Holmes I have continually been faced by difficulties caused by his own aversion to publicity. To his sombre and cynical spirit all popular applause was always abhorrent and nothing amused him more at the end of a successful case than to hand over the actual exposure to some orthodox official and to listen with a mocking smile to the general chorus of misplaced congratulation. It was indeed this attitude upon the part of my friend and certainly not any lack of interesting material which has caused me of late years to lay very few of my records before the public. My participation in some of his adventures was always a privilege which entailed discretion and reticence upon me. It was then with considerable surprise that I received a telegram from Holmes last Tuesday he has never been known to write where a telegram would serve in the following terms.

**The New Annotated Sherlock Holmes: The memoirs of Sherlock Holmes** Arthur Conan Doyle, 2005

This monumental edition promises to be the most important new contribution to Sherlock Holmes literature since William Baring Gould's 1967 classic work. In this boxed set, Leslie Klinger, a leading world authority, reassembles Arthur Conan Doyle's 56 classic short stories in the order in which they appeared in late nineteenth and early twentieth century book editions. Inside, readers will find a cornucopia of insights: beginners will benefit from Klinger's insightful biographies of Holmes, Watson, and Conan Doyle; history lovers will revel in the wealth of Victorian literary and cultural details; Sherlockian fanatics will puzzle over tantalizing new theories; art lovers will thrill to the 700 plus illustrations which make this the most lavishly illustrated edition of the Holmes tales ever produced. The New Annotated Sherlock Holmes illuminates the timeless genius of Arthur Conan Doyle for an entirely new generation of readers. 700 illustrations. [The Detective's Companion in Crime Fiction](#) Lucy Andrew, Samuel Saunders, 2021-07-24. This book aims to establish the position of the sidekick character in the crime and detective fiction literary genres. It re-evaluates the traditional view that the sidekick character in these genres is often overlooked as having a small generic or singular role, either to act as the foil to the detective in order to accentuate their own abilities at solving crimes, or else to simply tell the story to the reader. Instead, essays in the collection explore the representations and functions of the detective's sidekick across a range of forms and subgenres of crime fiction. By incorporating forms such as children's detective fiction, comics, and graphic novels, and film and television alongside the more traditional fare of novels and short stories, this book aims to break down the boundaries that sometimes exist between these forms, using the sidekick as a defining thread to link them together into a wider conceptual argument that covers a broad range of crime narratives. [Encyclopedia of Library and Information Science](#) Allen Kent, Harold Lancour, Jay E. Daily, 1980-05-01. The Encyclopedia of Library and Information Science provides an outstanding resource in 33 published volumes with 2 helpful indexes. This thorough reference set, written by 1300 eminent international experts, offers librarians, information computer scientists, bibliographers, documentalists, systems analysts, and students convenient access to the techniques and tools of both library and information science. Impeccably researched, cross-referenced, alphabetized by subject, and generously illustrated, the Encyclopedia of Library and Information Science integrates the essential theoretical and practical information accumulating in this rapidly growing field. **His Last Bow** Arthur Conan Doyle, 2025-01-12. There's an east wind coming, such a wind as never blew on England yet. Arthur Conan Doyle's *His Last Bow* features a selection of Sherlock Holmes stories written at a time of growing tensions in Europe. First published as a collection in 1917 against the backdrop of the First World War, the volume covers tales that deviate from the pattern of earlier Sherlock adventures, which focus on individual culpability and the comfort of a simplistic restoration of order. The titular story in this collection was influenced by Doyle's personal experience of the war, and in these tales, the solutions to seemingly small-scale local mysteries uncover crimes concerning national security or even expose the covert evil actions of organizations and powerful dictators. This edition contains a new introduction by Trish Ferguson, which offers a richly detailed contextual backdrop for

understanding the work as an act of war service designed to offer a morale boost to both British troops abroad and readers at home

**ABOUT THE SERIES** For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe Each affordable volume reflects Oxford's commitment to scholarship providing the most accurate text plus a wealth of other valuable features including expert introductions by leading authorities helpful notes to clarify the text up to date bibliographies for further study and much more

**London 1900** Jonathan Schneer, 2001-01-01 In 1900 London was the capital of an empire that spanned the globe This text examines the powerful city and its relationship with the British Empire at the turn of the century

*Icons of Mystery and Crime Detection* Mitzi M. Brunsdale, 2010-07-26 This book provides an introduction to 24 iconic figures real and fictional that have shaped the detective mystery genre of popular literature

*Icons of Mystery and Crime Detection From Sleuths to Superheroes* is an insightful look at one of our most popular and diverse fictional genres providing a guided tour of mystery and crime writing by focusing on two dozen of the field's most enduring creations and creators

*Icons of Mystery and Crime Detection* spans the history of the detective story with series of critical entries on the field's most evocative names from the originator of the form Edgar Allan Poe to its first popular running character Sherlock Holmes from the Golden Age of Sam Spade Philip Marlowe and Charlie Chan in fiction and films to small screen heroes such as Columbo and Jessica Fletcher Also included are other accomplished practitioners of the craft of mystery crime storytelling including Agatha Christie Tony Hillerman and Alfred Hitchcock

**Black Athena: The fabrication of ancient Greece, 1785-1985** Martin Bernal, 1987 Could Greek philosophy be rooted in Egyptian thought Is it possible that the Pythagorean theory was conceived on the shores of the Nile and the Euphrates rather than in ancient Greece Could it be that Western civilization was born on the so called Dark Continent For almost two centuries Western scholars have given little credence to the possibility of such scenarios In *Black Athena* an audacious three volume series that strikes at the heart of today's most heated culture wars Martin Bernal challenges Eurocentric attitudes by calling into question two of the longest established explanations for the origins of classical civilization The Aryan Model which is current today claims that Greek culture arose as the result of the conquest from the north by Indo European speakers or Aryans of the native pre Hellenes The Ancient Model which was maintained in Classical Greece held that the native population of Greece had initially been civilized by Egyptian and Phoenician colonists and that additional Near Eastern culture had been introduced to Greece by Greeks studying in Egypt and Southwest Asia Moving beyond these prevailing models Bernal proposes a Revised Ancient Model which suggests that classical civilization in fact had deep roots in Afroasiatic cultures This long awaited third and final volume of the series is concerned with the linguistic evidence that contradicts the Aryan Model of ancient Greece Bernal shows how nearly 40 percent of the Greek vocabulary has been plausibly derived from two Afroasiatic languages Ancient Egyptian and West Semitic He also reveals how these derivations are not limited to matters of trade but extended to the sophisticated language of politics religion and philosophy This evidence according to Bernal

confirms the fact that in Greece an Indo European people was culturally dominated by speakers of Ancient Egyptian and West Semitic Provocative passionate and colossal in scope this volume caps a thoughtful rewriting of history that has been stirring academic and political controversy since the publication of the first volume *Black Athena* Martin Bernal,1987
