Angeles Y Santos Patmos:

El alimento de la palabra Scott Hahn, 2014-05-01 El autor de *La cena del Cordero* desvela en esta obra el significado que posee el sacramento de la Eucaristía para un católico. Mucho antes de referirse a un texto escrito la expresión Nuevo Testamento designaba el sacramento de la Eucaristía. Solo pasado el tiempo los primeros cristianos empezaron a usarla para nombrar los últimos libros de la Biblia es decir los escritos por los Apóstoles y los primeros discípulos al ser leídos estos durante la Misa. Ese hecho histórico simple y constatable influye decisivamente en la lectura e interpretación de la Biblia. El alimento de la Palabra analiza el episodio de los discípulos de Emaús y las costumbres de la Iglesia primitiva. A partir de ambas fuentes el profesor Hahn ofrece una orientación para usar la Biblia en la oración y estudiarla con profundidad individualmente o en grupo y también para extraer de ella aplicaciones para la propia vida moral.

Moffitt, 2006-08-08 According to legend on December 8 1531 the Virgin Mary appeared to the newly Christianized Juan Diego on the Mexican hill of Tepeyacac. As proof of her divine visit she miraculously imprinted her image upon his mantle. That image known as Our Lady of Guadalupe has become a symbol of national consciousness in Mexico and a talisman for Mexican Americans. Yet its notable features include obviously European artistic techniques. How is it that Renaissance styles are employed in a 16th century Mexican icon supposedly not made by human hands? Looking beyond the divine explanation for the Lady's existence author John Moffitt uses historical and artistic detective work to determine the work's earthly origin. Originally published in Spanish this volume provides an in depth study of Our Lady of Guadalupe. It places the work within the context of art history as well as local contemporary events. The mundane origin of the painting is fully traced and investigated as well as the proliferation of the legend which led to the eventual canonization of Juan Diego as the first native Mexican saint. Appendices provide crucial related Spanish language texts by Miguel Sanchez 1648 and Luis Laso de la Vega 1649 originally published in Nahuatl. Numerous illustrations are included.
