 the 2015 Federated Conference on Software Development and Object Technologies* Jan Janech, Jozef Kostolny, Tomasz  
 Gratkowski, 2016-12-14 This book presents the proceedings of the International Conference SDOT which was organized at  
 the University of Ilkka Faculty of Management Sciences and Informatics Slovak Republic in November 19 2015 The  
 conference was truly international both in terms of the amount of foreign contributions and in terms of composition of  
 steering and scientific committees The book and the conference serves as a platform of professional exchange of knowledge  
 and experience for the latest trends in software development and object oriented technologies theory and practice This  
 proceedings present information on the latest developments and mediate the exchange of experience between practitioners  
 and academia Digital Enterprises Henderik A. Proper, Bas van Gils, Kazem Haki, 2023-11-14 This book explores different  
 aspects of and provides concrete suggestions to meet the three main challenges for becoming a Digital Enterprise the  
 transition to the digital age the emergence of service ecosystems and the growing role of data as a key underlying resource  
 As a result of these intertwined and mutually amplifying trends today's enterprises are confronted with several challenges  
 that profoundly impact their design from the definitions of products and services offered to their clients via the business  
 processes that deliver these products and services to the underlying IT infrastructure The contributions which are written by  
 leading enterprise architecture researchers and managers of large corporations cover four key aspects which form each one  
 part of the book Part I presents experiences how different enterprises currently already need to embrace and exploit new  
 challenges like blockchain customer centric services or value co creation networks Part II looks at the need for a new design  
 logic i.e. the need for new ways of thinking regarding the design of enterprises Part III is concerned with the coordination  
 needed among different stakeholders of the ensuing continuous transformations Part IV eventually reflects on the ongoing  
 consequences for enterprise modeling as used to capture both the current affairs of an enterprise as well as design study its  
 possible future affairs The target audience of this book are both master and PhD level students who want to gain insights into  
 key aspects of the challenges confronting digital enterprises as well as enterprise architects and information managers

working in enterprises that are on their way to become digital
