**The Alien Immigrant (Classic Reprint)** Major W. Evans-Gordon, 2015-07-08 Excerpt from The Alien Immigrant The alien Immigrant has been the subject of prolonged and bitter controversy in which both sides have been guilty of some exaggeration. On the one hand there are those who uphold the newcomers as an unmixed advantage to this country; on the other there are many who denounce their advent as an unmitigated evil. The object of this volume is to put both aspects of the case before the public as impartially as I can. The whole subject is one of great difficulty and complexity but I am not without hope that these pages may serve to throw some light on it. **Diversity and Difference in Early Modern London** Jacob Selwood, 2016-05-23 London in the sixteenth and seventeenth centuries was a surprisingly diverse place home not just to people from throughout the British Isles but to a significant population of French

and Dutch immigrants to travelers and refugees from beyond Europe's borderlands and from the 1650s to a growing Jewish community. Yet although we know much about the population of the capital of early modern England we know little about how Londoners conceived of the many peoples of their own city. Diversity and Difference in Early Modern London seeks to rectify this addressing the question of how the inhabitants of the metropolis ordered the heterogeneity around them. Rather than relying upon literary or theatrical representations this study emphasizes day to day practice drawing upon petitions government records guild minute books and taxation disputes along with plays and printed texts. It shows how the people of London defined belonging and exclusion in the course of their daily actions through such prosaic activities as the making and selling of goods the collection of taxes and the daily give and take of guild politics. This book demonstrates that encounters with heterogeneity predate either imperial expansion or post colonial immigration. In doing so it offers a perspective of interest both to scholars of the early modern English metropolis and to historians of race migration imperialism and the wider Atlantic world. An empirical examination of civic economics taxation and occupational politics that asks broader questions about multiculturalism and Englishness this study speaks not just to the history of immigration in London itself but to the wider debate about evolving notions of national identity in the sixteenth and seventeenth centuries.
