Rich with new full color images and updated tips for selecting materials, this highly produced edition will bring you up to speed with Mel's industry changing insights.

High Yield, Small Space Organic Gardening Christy Wilhelmi, 2025-04-08 Grow big or go home. That seems to be the choice for any aspiring gardener who wants an at home garden: you can either use your space for one or two plants or find a new space. But in High Yield Small Space Organic Gardening, there aren't any limits. Gardening expert and author Christy Wilhelmi shares her easy to follow, low effort, scientific approach and tips for cultivating crops in small or unconventional spaces that she's learned from maintaining productive gardens of less than 300 square feet. You'll find techniques for maintaining whole garden ecosystems. You'll discover guides for planning and planting for your unique space. You'll uncover the best options for garden beds and learn the secrets of irrigation and pest control no matter where you live. The step by step guides outline everything in specific detail all the way up to recipes you can use to enjoy the vegetables you grew. Unlock the science behind high yield gardening and discover why you don't need to be a big time landowner to cultivate a beautiful productive garden.

Square Foot Gardening High-Value Veggies Mel Bartholomew, 2016-03-15 Get the most return on investment from your garden by calculating which vegetables, fruits and herbs give the highest payback. To make the selection process of what to grow easy, Mel Bartholomew, author of the best selling Square Foot Gardening, has a new book to maximize your garden's return on investment. High Value Veggies is an easy to use reference book that will help you choose edibles that make the most financial and spatial sense for your space. Explore the thought processes and math behind growing vegetables and herbs in order to craft the best plan for you. Maximizing your garden's yield is no simple task. Consider the tomato: most people think it's a safe bet for a high yield return, but which variety? Heirloom tomatoes typically cost 5 or more a pound at farmers markets.

You can beat that price by growing Cherokee Purples from seed at a net cost of only 80 cents per pound. If you plant purchased seedlings the cost will go up to about 1 a pound and that's including the cost of water and fertilizer. This is the kind of invaluable data and advice you can trust High Value Veggies to provide. Whether you're interested in growing tomatoes, pumpkins, cabbage, corn, or anything else, it's wise to consider the invisible dollar signs sown along the way. The relative return on investment for each veggie in High Value Veggies is calculated based on dollar value generated for each square foot planted. You don't need to be a math whiz to plan your next vegetable garden. Bartholomew has done the math for you and he has cost-effective answers.
