Why America Didn't Become Great Again Robert Chernomas, Ian Hudson, 2025-04-22 Examining the conditions that not only blocked attempts to make America great again but also actively made the country worse Why America Didn't Become Great Again identifies those organizations institutions politicians and prominent characters in the forefront of the economic and social policies ultimately asking who is responsible The period from the late 1970s to 2020s became the best of times for America's corporate class As profits grew along with the wealth and income that they delivered for their stockholders and management their goal was to set new rules for the rest of us to live by with a clear class agenda Institutions have been organized government policies reoriented and economists journalists and politicians recruited funded and promoted And so it has not been the best of times for working families as inequality stagnant wages debt and ever longer working hours became their fate This book critically analyzes those who very deliberately set out to implement policies enacted at the state and federal level in order to redistribute wealth and income upwards and change the balance of power in the United States in response to the class gender and racial challenges that resulted in compressed income and wealth differentials before the 1980s An essential book on contemporary inequality in America Why America Didn't Become Great Again surveys the past near half century that resulted in American economic instability and inequality environmental crisis a crumbling physical and harmful social infrastructure among the very worst health outcomes child poverty food insecurity and social mobility of the industrialized countries culminating in a Trump regime and the road to further ruin

Solidarity Leah Hunt-Hendrix, Astra Taylor, 2025-08-26 A VULTURE BEST BOOK From renowned organizers and activists Leah Hunt Hendrix and Astra Taylor comes the first in depth examination of Solidarity not just as a rallying cry but as potent political movement with potential to effect lasting change A DAYTON LITERARY PEACE PRIZE FINALIST A window into what is possible when we reject the politics of division trade individualism for interconnectedness and prioritize coming together for the greater good Heather McGhee author of The Sum of Us What Racism Costs Everyone Reads at once like a moral treatise and a rallying manifesto a call to reflect and lock arms The Washington Post Solidarity is often invoked but it is rarely analyzed and poorly understood Here two leading activists and thinkers survey the past present and future of the concept across borders of nation identity and class to ask how can we build solidarity in an era of staggering inequality polarization violence and ecological catastrophe Offering a lively and lucid history of the idea from Ancient Rome through the first European and American socialists and labor organizers to twenty first century social movements like Occupy Wall Street and Black Lives Matter Hunt Hendrix and Taylor trace the philosophical debates and political struggles that have shaped the modern world Looking forward they argue that a clear understanding of how solidarity is built and sustained and an awareness of how it has been suppressed is essential to warding off the many crises of our present right wing backlash irreversible climate damage widespread alienation loneliness and despair Hunt Hendrix and Taylor insist that solidarity is both a principle and a

practice one that must be cultivated and institutionalized so that care for the common good becomes the central aim of politics and social life

Our Fight for America Michael Savage, 2020-09-15 In the follow up to the 1 New York Times bestseller *Trump's War* Michael Savage makes the case for President Trump in 2020 America rolled into 2020 like a juggernaut with the strongest economy in its history and a renewed leadership role on the world stage President Trump was cruising to reelection on the strength of record low unemployment phase one of a historic trade deal and a more stable Middle East after the defeat of ISIS Then catastrophe struck A novel coronavirus originating in Wuhan China swept the world taking hundreds of thousands of lives and wreaking economic and social destruction As America battled to its feet and prepared to reopen its economy the tragic death of George Floyd at the hands of a police officer lit a powder keg of political tension waiting to explode after months of lockdown As the November elections approach America is at war with itself to decide if it will remain a land of freedom and opportunity or whether a radical new vision will emerge Americans are searching for answers Was the American lockdown necessary to defeat Covid 19 or was it a politically motivated strategy to harm President Trump's reelection chances Does the death of George Floyd represent a systemic problem with American police or is the Left exploiting the tragedy for political purposes Where does legitimate protest end and insurrection begin A trained scientist who studied epidemiology for his PhD and one of America's most popular conservative radio hosts for the past twenty six years Dr Michael Savage is uniquely positioned to answer these burning questions In **OUR FIGHT FOR AMERICA THE WAR CONTINUES** Savage cuts through the propaganda and noise to present a clear analysis of the crises and the political and scientific motivations behind them Michael Savage tells the truth even when nobody wants to hear it and presents a clear vision of what Americans must do to survive our most turbulent period in decades

Deceiving America Thomas Moore, 2024-09-24 In *Deceiving America* Thomas Moore delivers a powerful examination of how progressive policies are fundamentally transforming the United States and not for the better Drawing from historical context and contemporary examples Moore methodically reveals how today's progressive movement mirrors dangerous totalitarian systems of the past From critical race theory being integrated into public education to radical criminal justice reforms that have increased violent crime Moore presents a compelling case that progressive Democrats are undermining American freedoms He explores how media propaganda federal overreach and the weakening of constitutional protections are creating a society increasingly controlled by government authority rather than individual liberty Moore's analysis tackles controversial topics like gun legislation the COVID 19 response escalating urban crime and the indoctrination of American schoolchildren with ideological concepts instead of essential skills Drawing parallels between current progressive tactics and the failed socialist regimes of history he warns that America stands at a critical crossroads Written with conviction and deeply researched *Deceiving America* offers conservatives and concerned Americans a clear eyed view of the challenges facing the nation's founding principles Moore's urgent warning will resonate with readers looking to understand and
